UNALLOCATED FUNDS FOR PROJECT PLANNING, INCREASED COST OF CONSTRUCTION, MISCELLANEOUS REPAIRS AND IMPROVEMENTS, AND STATE COLLEGE DORMITORIES AND PARKING

SUMMARY

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	PROPOSED 1962-63
TOTAL EXPENDITURES, CAPITAL OUTLAY	$650,000	$800,000	$1,000,000
General Fund	500,000	800,000	100,000
State Construction Program Fund [d]	150,000	–	900,000

GENERAL ANALYSIS

Lump sum appropriations for project planning and miscellaneous repairs have been provided from which allocations to agencies are made as needed. The expenditures from such allocations are included in the individual agency budgets. That part which has not been allocated but which is estimated to be needed for further allocations, is included here as an expenditure.

Funds for preparation of complete project planning are proposed to continue the presently authorized procedures for securing sound cost estimates for subsequently budgeted projects.

Expenditures from available appropriations are estimated for allocation to state agencies upon approval of the State Public Works Board as prescribed by law for increased cost of construction when the lowest bid on a project is in excess of the available funds for such project. Savings from completed projects are transferred to this fund and are available by law for such allocations.

Funds are proposed for miscellaneous repairs and improvements to be allocated to agencies upon subsequent determination of requirements.

Funds are provided for state college dormitory and parking facilities to be allocated by the Department of Finance upon approval of the State Public Works Board.

Part III. Local Assistance Section

SUBVENTIONS

FOR EDUCATION:

- Apportionments for Public Schools
- Child Care Centers
- Contribution to Teachers' Retirement Fund
- Debt Service on Public School Building Bonds
- Free Textbooks
- School Building Construction
- School Lunch Program
- Special Milk Program
- Vocational Education—Reimbursements to School Districts
- National Defense Education

FOR PUBLIC HEALTH:

- Assistance to Local Agencies for Mental Health Services
- Assistance to Counties for Care of Crippled Children
- Assistance to Counties for Tuberculosis Sanitoria
- Assistance to Counties Without Local Health Departments
- Assistance to Local Health Departments
- Assistance to Local Agencies for Gnat Control
- Assistance to Local Agencies for Mosquito Control
- Assistance to Local Agencies for the Treatment of Physically Handicapped Children
- Assistance to Local and Nonprofit Agencies for Hospital Construction

FOR PUBLIC WORKS:

- Local Roads and Highways
- Flood Control—Department of Water Resources and Reclamation Board
- Beach Erosion Control
- Grade Crossing Protection Works
- Storm and Flood Damage Repair
- Earthquake Damage Repair
- Veterans Housing
- Loans to Local Agencies for Small Craft Harbors
- Debt Service on Small Craft Harbor Bonds
- Airport Assistance

FOR SOCIAL WELFARE:

- Aid to the Needy Blind
- Aid to Potentially Self-supporting Blind
- Aid to Needy Children
- Aid to Needy Disabled
- Old Age Security
- Medical Assistance for the Aged
- County Administration of Assistance Programs
- Administrative Assistance for County Welfare Departments
- County Administration of Child Welfare Services
- Grants for Community Services for Older Persons
- Local Inspection of Homes and Agencies Caring for Aged and Children
- Reimbursement to Counties for Administration and Cost of Care of Adoptions

SUBVENTIONS—Continued

For Other Purposes:

- Salaries of Superior Court Judges
- Contributions to Judges' Retirement Fund and Health and Welfare
- County Veterans Service Officers
- Salaries of County Agricultural Commissioners
- Workmen's Compensation for Disaster Service Workers
- Assistance to Counties for Maintenance of Juvenile Homes and Camps
- Assistance to Counties for Construction of Juvenile Homes and Camps
- Assistance for Control of Juveniles
- Assistance to Cities and Counties for Peace Officers' Standards and Training
- Assistance to Counties for Prosecution and Conduct of Homicide Trials
- Assistance to County Agricultural Fairs and Citrus Fruit Fairs
- Grants to Soil Conservation Districts

SHARED REVENUES

For General Government:

- Apportionment of Liquor License Fees
- Apportionment of Motor Vehicle License Fees
- Apportionment of Highways Property Rental Receipts

Apportionment of Federal Receipts:

- Flood Control Lands
- Forest Reserves
- Grazing Lands
- Potash Lease Rentals

For County Roads:

- Apportionment of Motor Vehicle Fuel Tax
- Apportionment of Motor Vehicle Registration and Weight Fees

For County Airports:

- Apportionment of Motor Vehicle Fuel Tax

For City Streets:

- Apportionment of Motor Vehicle Fuel Tax

GENERAL ANALYSIS

This section includes apportionments to local public school districts from continuing appropriations, as follows:

1. Apportionment for support of public schools.

   $201.36 per pupil in average daily attendance in the preceding fiscal year is paid to public school districts for support of kindergarten, elementary, secondary, and technical schools. This apportionment is based on a constitutional minimum augmented by legislative action.

Article IX, Section 6, of the Constitution provides that the Legislature shall add to the State School Fund revenues to provide for an apportionment each fiscal year of not less than $180 per pupil in average daily attendance during the preceding fiscal year. This apportionment per pupil was increased by the Legislature from $180 to $193.37 in 1957; to $201.10 in 1959; and to $201.36 in 1961.

---

[a] Neither receipts nor expenditures of federal funds are included in the overall budget totals.

[b] Neither receipts nor expenditures of bond funds are included in the overall budget totals.

SUBVENTIONS FOR EDUCATION—Continued

SUBVENTION EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63

Apportionments for Public Schools—Continued

GENERAL ANALYSIS—Continued

The total cost in 1962-63 based on estimated 3,775,000 pupils in average daily attendance will be $760,134,000. This amount is funded by $3,725,000 available in the State School Fund $617,085 from the County School Service Fund and $755,791,915 from the General Fund.

2. Automobile driver training.

$42 per pupil for reimbursement of actual cost of instructing pupils in the operation of motor vehicles, plus 75% of the cost of replacing vehicles and simulators used is authorized by Education Code Section 17305. The total reimbursement cannot exceed the total of the moneys in the Driver Training Penalty Assessment Fund. This fund receives a penalty assessment which is levied on offenses relating to operation of motor vehicles. In 1962-63 the reimbursable expenses are estimated at $42 for 148,180 students, plus $100,000 equipment, for a total of $6,323,560.

3. Project-connected pupils.

Special allowances are provided pursuant to Education Code Sections 18301-18307 inclusive for State Department of Water Resources project-connected pupils. In 1961-62 $67,065 is provided for this purpose and $75,000 is estimated for 1962-63.

4. Apportionment to junior college tuition funds for newly formed districts.

Apportionments are authorized by Education Code Section 20211 for newly formed junior college districts to pay their junior college tuition fund tax. The special tax upon all taxable property in a county not situated in any school district maintaining a junior college is cancelled when the area is formed into a junior college, and the State General Fund pays the amount which would have been raised by the tax for a one-year period. During 1960-61 two junior college districts qualified for $252,792, and in 1961-62 seven districts will require $4,947,874. It is estimated that six districts in 1962-63 will require $3,000,000.

5. Special educational programs for mentally gifted minors.

Chapter 883, Statutes of 1961 authorized school districts to provide programs for mentally gifted minors. A "mentally gifted minor" means a minor enrolled in a public primary or secondary school who demonstrates such general intellectual capacity as to place him within the top 2 percent of all students having achieved his school grade throughout the State.

A continuing appropriation from the General Fund is made for reimbursement of the excess expense to school districts who provide this program. The cost of this program is limited to the product of $40 times 2 percent of the average daily attendance of pupils in kindergarten and grades 1 through 12.

It is estimated that the first year's appropriation will be less than the maximum because time is required for adoption of rules and regulations and identification of eligible pupils. Accordingly, the budget proposal of $1,425,000 is based on an estimate of 50 percent participation by the eligible average daily attendance in kindergarten through the 12th grade, including regular students, physically handicapped, mentally retarded, special classes, and adults.

6. Junior college tax relief for capital outlay.

Chapter 1006, Statutes of 1961 enacted the Junior College Tax Relief Act and appropriated $5,000,000 from the General Fund for tax relief grants. It is estimated that $4,000,000 will be granted in 1961-62 and $1,000,000 in 1962-63. These tax relief grants to junior college districts are for the following purposes:

(a) For the payment of interest and redemption of outstanding bonds issued for junior college purposes or for money borrowed for capital outlay purposes from the county school service fund.

(b) For the purchase or improvement of junior college sites or the planning and construction of junior college buildings on a matching basis of not to exceed one part state funds for each four parts district funds.

Chapter 1006, Statutes of 1961 also provided for the recovery of accumulated surpluses in county school service funds, estimated at $7,059,886 in 1961-62 and $617,085 in 1962-63, a total of $7,676,971. $5,000,000 of this amount is to be retained in the General Fund. The balance of $2,676,971 to be transferred to the County School Service Fund Surplus Account in the General Fund from which it is available for educational purposes when specifically appropriated by a future act of the Legislature.

The "prior year" average daily attendance upon which apportionments are based is as follows:

Average Daily Attendance:

	1959-60	1960-61	1961-62
Elementary Grades, Kindergarten Through 8:			
Regular classes	2,335,566	2,444,772	2,544,000

Child Care Centers

EXPENDITURES *(General Fund)*	$4,994,128	$4,947,851	$5,881,666	$933,815 (18.9%)

GENERAL ANALYSIS

Objectives

Child care centers are established to provide care and supervision of children when it is necessary for the parent to work and the parent qualifies on the basis of need. The centers are administered under the provisions of Sections 16601 through 16645.27 of the Education Code.

Program and Performance

To carry out this program the State furnishes two-thirds of the cost, or about $0.28 per hour per child, for the maintenance and operation of the centers. The balance of the cost, or about $0.14 per hour, is paid by fees collected from those persons utilizing the program.

The Child Care Center Program was established on a temporary basis by the 1943 Legislature and was made a permanent program by the 1957 General Session of the Legislature.

Legislative changes were made at the 1961 General Session of the Legislature affecting the state support of the program and also affecting the eligibility of parents to participate in the program. Chapter 882, Statutes of 1961, changed the level o General Fund support from $0.26 per hour to $0.28 per hour This change resulted in an estimated deficit of $382,628 in th 1961-62 fiscal year. Chapter 877, Statutes of 1961, liberalize the maximum income eligibility of parents who may use th centers and this legislation resulted in an estimated deficit o $50,643 in the 1961-62 fiscal year.

Section 16622 of the Education Code provides that if, durin any fiscal year there is apportioned to the Child Care Cente Fund more or less than the amount to which the fund was entitled, the Superintendent of Public Instruction during the nex or any succeeding year shall withhold from, or add to, the apportionment during the next or any succeeding fiscal year th amount of such excess or deficiency. During the 1961-62 fisca year it is estimated that the funds necessary to pay the State' portion will exceed the appropriation for 1961-62 by $433,271 due to the legislative changes previously discussed. Provision fo the anticipated deficit is made in the 1962-63 Budget.

Child Care Centers—Continued

The following table sets forth the enrollment status of this program:

	Actual 1958-59	Actual 1959-60	Actual 1960-61	Estimated 1961-62	Estimated 1962-63
Enrollment hours	18,202,673	18,921,635	18,972,390	19,131,377	19,292,081
Change from prior year	607,673 (3.5%)	718,962 (3.9%)	50,755 (0.3%)	158,987 (0.8%)	160,704 (0.8%)
Total apportionments	$4,593,310	$4,930,180	$4,994,128	$5,381,122 [a]	$5,448,395
Change from prior year	—$10,738	$336,870	$63,948	$386,994	$67,273

The 1962-63 budget assumes an 0.84 percent increase over the revised estimate of the 1961-62 enrollment and also includes the provision of $46,613 to provide for 179,280 enrollment hours in child care centers for physically handicapped and mentally retarded children as authorized by Chapter 2096, Statutes of 1959. Chapter 2141, Statutes of 1961 doubled the amount of State support from $0.26 to $0.52 an hour for these centers and established a fee schedule comparable to the fee schedule for the regular child care centers. At the present time the Stockton Unified District is operating a program and one other district is considering the establishment of the second authorized pilot program.

The administrative costs of this program are carried in the budget of the Administrative Services Bureau, Division of Public School Administration, Department of Education.

GENERAL ANALYSIS

The State Teachers' Retirement System will contain 257,300 active members, with an additional retired roll of 26,398 members on June 30, 1963. Since July 1, 1944, members' contributions have been on a full reserve basis, state contributions are appropriated in amounts required to liquidate the amount of maturing liabilities not funded from the members' accumulated reserve, and the contributions of employers, rather than as the liabilities accrue. Since July 1956 the members' contributions are fixed in percentages of salary which on the average will provide for accumulation of funds sufficient to pay for one-half the cost of the member's benefit for such service. The district payment since July 1956 has been 3 percent of the teacher payroll in the district (with a maximum limitation of an amount equal to $0.05 per $100 assessed valuation) plus $12 per teacher. Before 1956 only the $12 per teacher payment was made by the district.

The State finances expenditures not funded by the contributions of employing agencies and members. The State's contributions to the Teachers' Retirement Fund and the Retirement Annuity Fund are used to finance the major portion of expenditures for retirement allowances. The major portion of such allowances is payable for prior service which is funded entirely from contributions of the State and the employing districts. Subventions to local retirement systems and a portion of death benefits from the Retirement Annuity Fund are also provided from state contributions.

The subventions to local systems consist of payments of amounts equal to the allowances which would have been payable had the retired members involved been entitled to benefits from the state system alone. The payments are made on the basis of the amounts withheld from local members in the preceding year, and are reduced by one-half of the benefit payable on account of service after 1944 on which no Retirement Annuity Fund contributions have been paid.

Chapter 2060, Statutes of 1959, added a program of monthly benefits for survivors of active members who die while in service. These benefits are payable upon such death as they occur after September 30, 1959. Currently the benefits are being financed from a reserve of contributions credited on account for service rendered prior to July 1, 1944.

ANALYSIS OF EXPENDITURES

GENERAL ANALYSIS

Objectives

The proceeds from the sale of state bonds are loaned to school districts for the purpose of providing school facilities. The school districts that have received loans repay over a period of years. The bonds that have been sold are general obligations of the State of California.

The 1961 Legislative Session provided changes by Chapter 3, Statutes of 1961, whereby the legal apportionment limitations were increased from $10,000,000 per month to $12,000,000 per month; apportionment limitations were increased an additional $30,000,000 to eliminate a backlog in pending applications for school construction loans by Chapter 4, Statutes of 1961; and an additional authorization to increase the legal limitation from $12,000,000 per month to $15,000,000 after October 1, 1961 is provided for by Chapter 380, Statutes of 1961.

Program and Performance

Since 1947 the State of California has assisted school districts in the financing of necessary construction of school facilities to provide for their increased enrollments.

These facilities include acquisition and development of school sites, the construction of school buildings, and the furnishing of the necessary furniture and equipment so that they may be in readiness for school operation. The districts which have received these funds are those districts who cannot finance their own facilities with their existing legal resources. A school district may issue bonds in the amount of 5 percent of their assessed valuation for each grade level and the proceeds of these bonds are used for capital outlay purposes. Whenever this amount is insufficient to finance the necessary school construction, school districts may request a loan from the State for this purpose.

From 1947 to 1960 inclusive, there has been made available the amount of $1,210,500,000 for these school districts. Of this amount, $75,500,000 has been by direct appropriation and the balance, $1,135,000,000, has been provided by State bond issues, the most recent one of which was the amount of $300,000,000 in 1960.

To date, more than 38,000 classrooms housing 1,254,000 pupils have been provided under the program. At the present rate of expenditure authorization of $12,000,000 per month, it will require approximately $140,000,000 per year to continue the program in its present form.

Authorized bonds have been sold to the extent of $935,000,000 as of September 30, 1961, and additional bond sales of $150,000,000 are tentatively scheduled before the end of the budget year. The balance unsold of $50,000,000 will not be required during this budget period.

By July 1962 applications for apportionments will be approved which will exceed the existing bond authorization. Applications approved beyond July 1962 would require additional bond financing to provide for the continuance of the program.

The amount to be repaid by the school districts is determined each year by the relationship between the assessed valuation of the district and the amount the district must raise by local property taxes for payment on its bonded debt. Provisions for deferment of annual repayment was authorized by Chapter 1880, Statutes of 1957, and was amended by Chapter 4, Statutes of 1958, and by Chapter 533, Statutes of 1959. The district repayments are affected to a significant extent by the use of deferment authorizations as indicated by the following data with a resultant effect upon the net cost to the General Fund as computed by fiscal year:

Fiscal Year	Total Deferred Payments
1957-58	$974,524
1958-59	2,787,825
1959-60	5,445,560
1960-61	8,905,004
1961-62 (estimated)	13,022,343
1962-63 (estimated)	17,700,000

The period for repayment of deferred amounts was extended by statute from 30 years to 40 years. After this time has elapsed any unpaid deferred balance is to be canceled.

The effective rate of interest to be paid on these bonds has varied from a low rate of 1.74 percent in 1950 to a high rate of 4 percent in 1959. The last sale in September 1961, was issued at an effective rate of 3.75 percent.

---

[a] Amount by which original estimate exceeded expenditures in prior years.

[b] Amount by which original estimate exceeded expenditures for 1960-61 and 1961-62.

[c] Expenditures from bond funds are not included in the overall budget totals.

GENERAL ANALYSIS

Objectives

The textbook program, under the authority of Section 7, Article 9, of the Constitution, provides for the publishing and purchasing of textbooks approved by the State Board of Education. The textbooks are then distributed without charge to pupils in the elementary grades of the public schools within the State.

---

[a] Bond funds, neither receipts nor expenditures are included in overall budget totals.

GENERAL ANALYSIS—Continued

Program and Performance

The 1962-63 program includes funds for a one-year distribution of the new adoptions in history and geography for the 5th and 8th grades and 8th grade civics and for a two-year printing program for prior adoptions. All books offered by publishers for the new adoptions were evaluated by the State Curriculum Commission and the commission recommended its choice of books to the State Board of Education for adoption. The State Board of Education subsequently adopted the commission's recommendations.

A program which would provide that all textbook adoptions be manufactured in the State Printing Plant has been estimated to have a potential savings to California taxpayers of millions of dollars over future years. This budget, however, proposes funds for the purchase of textbooks which have not been offered on a lease plate basis for printing in the State Printing Plant in addition to funds for the manufacturing of textbooks in the State Printing Plant, thereby insuring that the pupils of California may have the best possible educational opportunity. To assure that this opportunity to purchase textbooks is offered at a reasonable cost in relation to state printing costs, it is proposed that the price differential be limited to 13 percent of a computed estimated cost figure which has as its base the cost of manufacturing the same or similar books in the State Printing Plant. This limitation will to some small extent offset the increased costs inherent in purchasing completed textbooks rather than manufacturing them in the State Printing Plant. The price differential of 13 percent allows a premium over the estimated cost of production in the State Printing Plant but provides a saving of $216,055 in relation to the prices as bid by the various publishing companies.

Continuation of the proposed limitation would result in a reduction in the price of purchased books by $396,109 for the four-year adoption period.

The following table reflects the subject and/or title of the proposed adoptions, and the number of copies needed and cost figures for the first year. The column "cost of printing" lists the estimated cost of manufacture of the book at the State Printing Plant except for books not bid by publishers on this basis. The columns headed "Cost of Purchase" list the bid prices submitted to the State of the purchased books, the costs that will be paid by the State under the proposed price limitation, and the savings to the State from imposing such limitation.

FIFTH GRADE ADOPTIONS

School Building Construction

SUMMARY

	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63
TOTAL EXPENDITURES *(State School Construction Fund)*	–	–	$250,000

GENERAL ANALYSIS

The State Allocation Board apportions funds to local school districts from the State School Construction Fund if a state construction project causes population increases in the area. A district is eligible for an apportionment if the number of project children and in-district project children in school attendance is at least 25 and is at least 5 percent of the school district average attendance. Each school district to which an apportionment is made shall repay the principal amount within a period of 30 years per Chapter 2383, Statutes of 1957, in accordance w the provisions of the State Project Area School Construct Law.

It is anticipated that the progress of the state water sources development program will affect school districts to extent requiring an expenditure of appropriated funds dur the 1962-63 fiscal year.

School Lunch Program

TOTAL EXPENDITURES *(Federal funds)* [a]	$5,519,038	$6,100,000	$6,100,000	

GENERAL ANALYSIS

Under the Federal School Lunch Act, federal funds are distributed to school districts offering approved lunches to children on a partially reimbursed basis. During the 1960-61 fiscal year, 3456 schools participated, an increase of 135 schools over the previous year. Surplus food commodities donated by the Federal Government during 1960-61 amounted to $9,010,674 or a decrease of $667,077 from the $9,677,751 donated in 1959-60. These surplus food commodities were distributed by the State Educational Agency for Surplus Property. Handling charges for this service, amounting to $648,765, were reimbursed by the school districts to the Surplus Property Revolving Fund.

GENERAL ANALYSIS

This program is sponsored by the Federal Government under the Agricultural Adjustment Act of 1949, which encourages school pupils to consume surplus milk. During the 1960-61 fiscal year 15,334,338 gallons of milk were consumed or an increase of 230,362 gallons over the 15,103,976 gallons consumed in the previous year. The amount shown in the budget year is based on the estimated consumption for which federal funds are available.

This program, as well as the School Lunch Program, is administered through the Division of Public School Administration of the Department of Education.

Vocational Education—Reimbursements to School Districts—Continued

GENERAL ANALYSIS

Objectives

The purpose of vocational education is to provide training to develop skills, attitudes, and working habits, and to impart knowledge and information needed by workers to enter and make progress in employment on a useful and productive basis.

Program and Performance

The vocational education program for California is based on a plan, co-operatively approved and financed by local school districts, the State Department of Education, and the United States Office of Education.

The available funds are expended for supervision and teacher training at the state level and as reimbursements to those local districts which meet the established qualifications of the approved program. These reimbursements are based on the excess costs to the school districts of meeting the prescribed standards.

In accepting federal aid for vocational education, the State has provided appropriations to match, in part, federal grants-in-aid contained in federal vocational education legislation.

After the deduction of state operating costs, the remai
balances of state and federal funds for supervision and tea
training costs are distributed to public secondary school distr
maintaining approved courses in vocational instruction in a
culture, homemaking, business, and industrial occupations.

The available funds have been allocated to programs at
local level as follows:

	Actual 1960-61	Estimated 1961-62	Estin 1962
Agriculture	$353,984	$408,589	$407

Title 5—Improvement of Guidance	1,125,266	1,060,587	1,079,644	$19,057 (1.8%)
Totals *(Federal funds)* [a]	$3,672,145	$3,732,462	$3,751,519	$19,057 (0.5%)

GENERAL ANALYSIS

The National Defense Education Act of 1958 was enacted by Congress (Public Law 85-864) to provide financial assistance to states and their subdivisions in order to ensure trained manpower of sufficient quality and quantity to meet the national defense needs of the country. The total program is discussed in the State Operations Section of the Budget, National Defense Education. These titles, providing for reimbursements to local school districts, are administered by the State Department of Education.

Before a state can participate in the provisions of the National Defense Education programs, it must prepare and have approved by the United States Commissioner of Education a state plan for each program title which becomes the state's contract with the Federal Government. Federal funds are then released to the state in accordance with the approved state plan and on the basis of state allocations determined by the United States commissioner under a formula prescribed in the act.

TITLE 3a—IMPROVEMENT OF INSTRUCTION

Objectives

Title 3a of the National Defense Education Act is concerned with the improvement of instruction in the fields of science, mathematics, and modern foreign languages.

Program and Performance

Under Title 3a of the act, school districts and offices of county superintendents of schools file applications for funds for the purchase of equipment, materials, and minor remodeling with the State Department of Education and certify that local matching funds are available. The State Department of Education reviews the applications in terms of the state plan and approves or disapproves. Upon approval by the State Department of Education, the local agency is authorized to proceed with the purchases as outlined in their project proposal and to file a claim for reimbursement of one-half of the expenditure from federal funds.

The large amount of general purpose audio-visual equipment purchased with Title 3a funds has strengthened instruction in the 3 subject areas financed through the National Defense Education program, and has also improved the quality of learning experience in all areas of the curriculum. An evaluation of the impact of this program is in process and will be reported to the 1962 Budget Session of the Legislature.

Federal funds available for this title are matched by local school district expenditures and no General Fund appropriation is required.

SUBVENTION EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63	CHANGE FROM 1961-62
Reimbursements to school districts *(Federal funds)* [a]	$2,546,879	$2,671,875	$2,671,875	

TITLE 5—IMPROVEMENT OF GUIDANCE

Objectives

Title 5 of the National Defense Education Act is concerned with the establishment of programs of testing and guidance for the identification and encouragement of able students.

Program and Performance

This title provides federal funds for reimbursement to local school districts for the establishment and maintenance of programs in guidance, counseling, and testing in public secondary schools.

School districts file applications for these federal funds with the State Department of Education where the applications are reviewed in terms of the State Plan for Title 5. Upon approval by the department the local district is authorized to proceed with its program as outlined in its project proposal. Following the expenditure of funds by the local district, a claim is filed with the State Department of Education and the district is reimbursed for part of the expenditure.

Existing state and local expenditures meet the matching requirement of this title and no General Fund appropriation is required.

Assistance to Local Agencies for Mental Health Services

TOTAL EXPENDITURES *(General Fund)*	$2,142,822	$3,030,500	$3,300,000

GENERAL ANALYSIS

Financial assistance to local governments may be granted under Section 9034 and pursuant to Section 9030 of the Welfare and Institutions Code for the establishment and development of mental health services, including services to the mentally retarded, through locally administered and controlled community mental health programs. It is designed to augment and promote the improvement and, if necessary, the expansion of existing local psychiatric services in general hospitals or clinics that help to conserve the mental health of the people of California. The Department of Mental Hygiene is responsible for the review and co-ordination of this program.

The program was initiated in January 1958. Actual devel ment of the program was slower than anticipated resulting an unexpended balance of $1,280,948 in 1959-60, during wh period only 12 local jurisdictions participated. A significant crease in program level was experienced in 1960-61 as eviden by the expenditure of $2,142,822 with 18 jurisdictions part pating. It is anticipated that 21 jurisdictions will participate 1961-62 and 31 in 1962-63. A savings of $100,000 is estima for the current year while an increase of $169,500 over current appropriations is proposed for 1962-63 due to an ant pated acceleration of the program.

Treatment	12,000	184,731	184,731
Totals	$5,922,000	$6,650,000	$7,669,462

GENERAL ANALYSIS

This budget provides funds for a state program for handicapped children, which is administered under the provisions of Sections 249 to 271 of the Health and Safety Code. The code provides that whenever the parent or guardian of the child is unable to finance necessary care, a designated agency of the county shall request the State to furnish such services. Further, Section 270 makes it mandatory that each county appropriate at least 1/10 mill on each dollar of assessed property valuation to finance the program.

The budget formula for distribution of these funds is as follows:

a. Treatment:

After the county has spent the 1/10 mill, the State will provide funds sufficient to bring the program up to $20,000, or 3/10 mill, whichever is greater. Treatment costs beyond that point will be shared in the ratio of $2 of state funds to $1 of county funds.

b. Administrative Allowance:

The State will contribute two-thirds of the cost of administration of each independent county program, made in accordance with an approved budget, but not to exceed 6⅔ percent of the expenditures in the prior year.

c. Diagnosis and Noncounty Resident Care:

The State finances the cost of diagnosis for all children believed to have a condition eligible for treatment and the cost of treatment when the county of residence cannot be established.

Services rendered include necessary medical examinations and consultations, medical and surgical procedures, office and hospital visits, hospitalization, convalescent home care, rehabilitation services, and appliances such as artificial limbs, braces, hearing aids, etc.

Eligible medical conditions for this program are those which are remediable.

This budget provides for an increase in the unit cost for surgical fees from $3.50 to $4 at an estimated total cost of $250,000. This will establish surgical fees in this program at the state level. No increases in prices have been recognized since 1957-58.

Normal program growth, particularly in the Southern California area, will result in an increase in the state share of the program of $769,462.

TOTAL EXPENDITURES *(General Fund)*	$4,123,108	$3,691,447	$3,267,172

GENERAL ANALYSIS

Section 3298 of the Health and Safety Code provides for state grants-in-aid to counties for the treatment and care of persons suffering from tuberculosis. Decreased patient-days result from improved techniques of early case finding and treatment, decreased incidence of disease, and decreased bed occupancies. The latter is shown in the following table:

	ACTUAL					ESTIMATED	
	1956-57	1957-58	1958-59	1959-60	1960-61	1961-62	1962-63
Patient-days	1,646,621	1,432,232	1,303,552	1,131,165	984,673	856,433	745,097

Section 3300 of the Health and Safety Code provides a subsidy of $2.60 per patient-day for the first 36,500 patient-days of care, $2.30 per patient-day for the second 36,500 patient-days, and $1.75 for all additional days plus an additional amount specified in each budget act. The Budget Act of 1961 provided a supplemental amount of $2.21 to each category.

A supplemental amount of $2.30, an increase of $0.09 over the Budget Act of 1961, is proposed for the 1962-63 fiscal year,

Assistance to Counties Without Local Health Departments

TOTAL EXPENDITURES *(General Fund)*	$291,882	$324,085	$431,659

GENERAL ANALYSIS

Section 1157 of the Health and Safety Code permits the Department of Public Health to furnish local public health services to those counties without recognized local health departments which contribute a minimum of 55 cents per capita. This program now includes Alpine, Amador, Calaveras, El Dorado, Lake, Mariposa, Modoc, Mono, Nevada, Sierra, Trinity, and Tehama Counties.

Three nurses are provided for workload increases in El Dorado, Nevada, and Tehama Counties. In accordance with general policy, these programs were instituted using the minimum number of public health nurses. Now that the programs are well under way, staffing should be raised to the minimum quired for basic health programs.

Two nurses and 2 sanitarians are provided for Glenn Cou and Lassen County. These counties have indicated their de to contract with the State for service effective July 1,

This increase in staff and scope of program makes neces the decentralization of supervision of the program, which will require an additional supervising sanitarian, an additi supervising public health nurse, and an additional health cation consultant.

GENERAL ANALYSIS

These federal and state funds may be allocated to qualified health departments under the provisions of Section 1100 of the Health and Safety Code to provide effective local public health services. State funds are allocated to local health departments in accordance with Section 1141 of the Health and Safety Code.

The 1962-63 General Fund amount is proposed at the same level as 1961-62, as a continuation of the policy established by the Legislature of omitting adjustment for population growth. After allocation of federal funds for special local demonstration and investigation projects, the balance of the federal funds is distributed in the same ratio as state funds.

Assistance to Local Agencies for Mosquito Control

TOTAL EXPENDITURES *(General Fund)*	$191,031	$195,978	$198,235

GENERAL ANALYSIS

Assistance is provided to local governmental agencies as permitted by Sections 2425-2426 of the Health and Safety Code for control of mosquito-borne diseases in two ways:

a. Subsidy is provided for reporting of mosquito incidence
b. Research is conducted in field laboratories to determin the most effective and economical methods of mosquit control.

TOTAL EXPENDITURES *(General Fund)*	$1,158,809	$1,339,676	$1,539,676

GENERAL ANALYSIS

This is a joint program sponsored by the Department of Public Health, the Department of Education, local school districts, and local health departments throughout the State. Treatment for children with complicated medical diagnoses such as cerebral palsy, poliomyelitis, muscular dystrophy, amputation, and multiple sclerosis are provided by therapists in special school facilities. The therapy units are built and equipped by the school district; the physical and occupational therapists, and medical supervision have been provided through the Department of Public Health. Assignment of therapists is based on the number of children with cerebral palsy requiring treatment. Children with other disabling conditions receive treatment on a "time available" basis.

Special classrooms and therapy units are established by a school district (or a combination of school districts) for 12 children. Physical and occupational therapists are assigned on the basis of number of cases needing treatment and number of treatments prescribed.

This budget provides funds for the department to employ these therapists, or enter into contracts for local health department to employ them; such personnel will be transferred to local payrolls as soon as feasible. The 1962-63 Budget provides funds for 259 therapists for existing workload plus authorization for 15 additional therapists to meet the anticipated workload increase.

GENERAL ANALYSIS

Section 435.3 of the Health and Safety Code provides that the State may participate in the federal hospital construction program. Hospitals include nursing homes, diagnostic and treatment and rehabilitation centers, and chronic disease hospitals.

Allocations are made in accordance with the provisions of Section 435.6 of the Health and Safety Code to nonprofit as well as governmental hospitals.

TOTAL EXPENDITURES *(General Fund)*	$17,340,074	$10,372,276	$23,679,345

GENERAL ANALYSIS

Major Federal-State Flood Control Projects—Department of Water Resources

Chapters 1, 2, 3, and 4 of Part 6, Division 6 of the State Water Code provide that the State will pay for lands and relocation of improvements in connection with federal flood control projects which have been adopted and authorized by the Legislature.

This reallocation schedule provides for the continuation of 16 currently authorized projects and 1 project in Contra Costa County requiring funds for the first time.

Watershed Protection Projects—Department of Water Resources

This program is known as Public Law 566, Act of 1954 (amended by Public Law 1018, Eighty-fourth Congress, Second Session, 1956) entitled "Watershed Protection and Flood Protection Act of 1954." The act provides for the construction of works of improvement for the purposes of flood prevention and the agricultural phases of conservation, development, utilization, and disposal of water. In any watershed or subwatershed areas the projects shall be limited to 250,000 acres and shall not include structures having a capacity of more than 5,000 acre-feet for flood prevention, or a capacity of more than 25,000 acre-feet for all purposes. This group of 8 projects represents those which are administered at the federal level by the Department of Agriculture. One project at Walnut Creek is based on the Public Law 46 Pilot Plant Program while the remaining group is based on subsequent legislation.

Small Flood Control Projects—Department of Water Resources

Public Law 685 authorizes the Secretary of the Army to allot from appropriations heretofore or hereafter made for flood control not to exceed $10,000,000 in any one fiscal year, for the entire United States, for the construction of small flood control projects not specifically authorized by Congress, provided that not more than $400,000 be allotted for this purpose at any single locality from the appropriations for any one fiscal year.

Sacramento-San Joaquin River Drainage Basin Projects

Through the State Reclamation Board, the State co-operates with the Federal Government in the construction of flood control projects in the Sacramento-San Joaquin River drainage basin. The extent of state participation is determined by the several acts adopting and approving specific projects and for which appropriations to meet the State's cost are made as necessary. Generally such participation consists of the acquisition of rights-of-way, easements, flowage rights, and the cost of replacement or relocation of permanent improvements as necessitated by the construction of the flood control works, except that on the Sacramento River Bank Protection projects a contribution toward construction cost will be required.

The 1962-63 Budget proposes Sacramento River Bank Protection, a continuation of the Sacramento River Flood Control Project, the Lower San Joaquin River Flood Control Project, the Calaveras River and Littlejohn Creek and Tributaries Project, and the completion of the Middle Creek Flood Control Project.

The appropriation of $270,000 for Sacramento River Bank Protection is a result of Chapter 2188, Statutes of 1961, which authorized the project previously approved by Congress. This authorization will allow the initiation of a new 10-year bank stabilization program on the Sacramento River and its tributaries.

Total expenditures for 1962-63 are estimated to be $8,291,039 of which $2,127,039 is prior year appropriations. The appropriation requested is $6,164,000.

---

[a] Federal and county grants and expenditures therefrom are not included in the overall budget totals.

GENERAL ANALYSIS

Beach erosion control in California is the responsibility of the Department of Water Resources as defined in Sections 330 to 339, inclusive, of the Water Code which provides for study of beach erosion problems, co-operation with all federal, state, and local agencies in planning and construction within the availability of funds. It is further provided that it is the policy of the State to bear one-half of the costs of local public agency participation required by authorized federal projects, including construction costs and costs of lands, easements, and rights-of-way. Advances by the State for the federal share of the cost of beach erosion control projects is permitted under Section 338 of the Water Code. Such advances are considered as loans and are returned to the State upon completion of a project or a severable portion of a project.

Totals	$689,534	$556,317	—$38,844

GENERAL ANALYSIS

FLOOD RELIEF LAW OF 1956: Chapter 9, Statutes of 1956 (First Extraordinary Session) appropriated $24,900,000; $14,500,000 from the General Fund and $10,400,000 from the State Lands Act Fund. The amount appropriated from the General Fund was subject to allocation by the State Public Works Board to provide assistance to local agencies, including any city, city and county, county, or public district, for repair and restoration of public property damaged or destroyed by storm and flood during the months of December 1955 and January and February 1956. The amount appropriated from the State Lands Act Fund was for loans to local agencies for the completion of any of the repair projects for which the agencies were unable to meet their share of the cost. The 1957 Legislature appropriated an additional $1,200,000 from the General Fund to complete the financing of the program and the 1958 Legislature extended the availability of the appropriation until June 30, 1960.

Chapter 2039, Statutes of 1961, appropriated an additional $40,000 from the General Fund to complete the financing of 1 delayed project in the City of Santa Cruz under the program as the appropriation under Chapter 9 was no longer available for the purpose when the U.S. Corps of Engineers finalized design on the flood control project. The program is now in its final stage and the funds encumbered will suffice to complete it.

To date, the General Fund appropriation has been encumbered to the extent of $14,743,505 and the State Lands Act Fund appropriation to the extent of $190,863.

Local agencies repay loans from the State Lands Act Fund according to the terms of the individual agreements. These repayments are shown as minus expenditures in the budget under the 1956 program. Loans have been made only on the 1956 program.

FLOOD RELIEF FOR 1958 AND 1960: Item 446.7 of the Budget Act of 1958 appropriated $15,000,000 from the California Water Fund (formerly Investment Fund) to provide financial assistance to local agencies for the repair and restoration of public real property damaged by storm or flood during the period between January 1, 1958 and July 1, 1958. The 1959 Legislature extended the availability of the appropriation to June 30, 1960 and the 1960 Legislature further extended the appropriation without regard to fiscal years and made it available to provide financial assistance to local agencies to repair storm damage occurring between January 1, 1960 and July 1, 1960, as well as to complete the 1958 program. To date, commitments incurred or to be incurred are estimated at $7,245,000 for the 1958 repair program and $2,055,000 for the 1960 program; which amounts, it is believed, will be sufficient to complete the programs.

GENERAL ANALYSIS

The Division of Small Craft Harbors and the Small Craft Harbors Commission were created by Division 5.7 of Part I, Public Resources Code. The powers of the division are exercised by the chief of the division acting under the supervision and direction of the Director of Parks and Recreation. The commission establishes the general policies. The division has as part of its mission the program of developing small craft harbors and maintaining or improving the waterways of the State. At the present time, the agency is functioning in the area of assistance to cities, counties, or harbor districts in the planning of small boat harbors and waterways development. The assistance may be in the form of engineering advice, surveys, and site inspection. During the final planning stages in which preliminary plans are developed into contract plans and specifications this assistance would take the form of planning loans and engineering consultation. The agency may also provide construction loans to those local jurisdictions that can properly qualify. Financial assistance to local jurisdictions whether for planning or construction is on a loan basis.

As a part of the long-range program, it is contemplated that the division will also construct harbors of refuge as state developments in areas where the need is great and where complete development of the project is beyond the financial capability of a local agency. The first phase of an estimated $4,000,000 harbor of refuge project at Shelter Cove in Humboldt County was provided by Chapter 1875, Statutes of 1959. Although other harbors of refuge have been proposed, the commission considers that Shelter Cove should be developed first because of its location. Other suggested harbor of refuge areas are to be planned in accordance with a study carried on as a result of ACR 47 of the 1961 legislative session.

The Small Craft Harbors Commission has been authorized to make expenditures from any funds available from the sale of bonds authorized by the Harbor Development Bond Law of 1958. It is provided in this law that loans might be made to cities, cities and counties, counties, and districts having power to acquire, construct, and operate small craft harbors. While the bonds which are authorized by this law are general obligation bonds, it was contemplated that the bonds would be self-liquidating.

FEASIBILITY AND PLANNING STUDY LOANS

Section 5827 of the Public Resources Code authorizes the Division of Small Craft Harbors to make planning loans to cities, counties, or districts having power to acquire, construct, and operate small craft harbors. Such loans as are made must be repaid within 10 years and repayment must include a charge estimated to equal the revenue which the State would have derived by investing the total deferred payment at the interest rate prevailing for legal state investments.

The 1962-63 fiscal year program proposes the continuation of the planning loans. It is estimated that approximately $75,000 in loan requests will be received by the commission in 1962-63.

SMALL CRAFT HARBOR CONSTRUCTION LOANS

Section 5827 of the Public Resources Code authorizes the Division of Small Craft Harbors to make construction loans to cities, counties, or districts having power to acquire, construct, and operate small craft harbors. The division may loan money for acquisition, construction, improvement, maintenance, or operation of small craft harbors and related facilities. In addition, the division may concern itself with connecting waterways. The division is charged with the responsibility of determining that a project is feasible. The commission functions as the policy body in establishing the policies and standards to be used in making loans.

A brief statement of the present policies and standards follows:

1. All planning shall have been completed and copies of such plans and reports submitted to the division for approval.
2. The feasibility study shall indicate a favorable benefit-cost ratio.
3. All property to be used in connection with the project shall be owned or fully controlled by the requesting public agency; or an agreement-to-sell by the owner at a stated reasonable price shall be obtained prior to final approval of the loan.
4. A repayment agreement approved by the governing body of the requesting public agency shall be submitted with the application indicating the proposed method of loan repayment.
5. If the loan does not cover the entire cost of the project, a financing plan shall be submitted indicating sources of construction funds other than the loan being applied for, and the proposed method of retiring the loan and meeting other financial obligations of the project.
6. An operating plan shall be submitted indicating how the harbor will be operated and maintained on completion of construction.
7. Personnel of the division will inspect periodically the construction area to check on progress and to discuss the work with the local agency's inspection staff.

Section 5882 of the Public Resources Code provides that the Legislature shall make a specific appropriation of funds allocated from the Small Craft Harbor Revolving Fund for any authorized purpose with the exception of planning loans and grants to local districts for launching ramp facilities. The program reported herein does not require specific appropriation as it is furnished from a $5,000,000 appropriation from the California Water Fund made by Item 421.5, Budget Act of 1958. In addition to the state funds, federal and local funds will be used to meet the total estimated costs. In addition, allocations are also anticipated from the Small Craft Harbor Bond Fund. Bond sales of $6,000,000 from this fund have been executed. It is anticipated an additional $4,000,000 will be sold in the 1962-63 fiscal year, thus exhausting the fund.

LOAN FOR HARBOR OF REFUGE CONSTRUCTION BY DIVISION OF SMALL CRAFT HARBORS

Section 5823 of the Public Resources Code authorizes the Division of Small Craft Harbors to "prepare plans for, and acquire, construct, develop, and improve, small craft harbors, facilities in connection therewith, and connecting waterways." It is contemplated that this authorization will be used only when there is no local responsible agency to construct and operate a harbor, and where the need is great from the standpoint of safety. Such harbors are commonly known as harbors of refuge.

In the 1962-63 fiscal year the agency proposes execution of the initial phase of an estimated $4,000,000 harbor project at Shelter Cove in Humboldt County. This project was approved by Chapter 1875, Statutes of 1959. Shelter Cove is 39 nautical miles north of the Noyo River and 54 miles south of Humboldt Bay. The cove lies under the southern face of Point Delgada and affords some shelter in northwesterly weather, but the cove is exposed and dangerous with south and west winds. Landings can be made, with caution in favorable weather on the single beach along the northern shore of the cove. A county road connects with U. S. Highway 101 at Garberville, 24 miles east. A county airstrip is located on the point and plans have been made for improving and lengthening the present runway. Limited supply facilities are in existence at Shelter Cove to provide for the demands of transient craft using the cove.

The legislation requires that construction funds for this project be made available in the amount of $460,000 contingent upon the execution of an agreement that the County of Humboldt will take over the Shelter Cove project within a 3-year period. The county is to assume total responsibility of maintenance, operation and further development of this harbor project on the date the total amount appropriated is expended, or at the termination date of the availability of the appropriation, whichever is earlier. The agreement will provide for the repayment by the County of Humboldt of the money expended by the State, such repayment to start not more than 6 years from the date the money is expended, or from the termination date of the availability of the appropriation, whichever is earlier, including interest at 3 percent, and extending not more than 20 years from said earlier date.

Airport Assistance			
TOTAL EXPENDITURES *(Airport Assistance Fund)*	–	$335,000	$350,000

GENERAL ANALYSIS

The Airport Assistance Fund was created by Chapter 2127, Statutes of 1961, which makes a continuing appropriation of $350,000 per year from the Motor Vehicle Fuel Fund. Fifteen thousand dollars of this amount is available for the support of the Division of Aeronautics, Department of Public Works, for the division's activities in connection with the administration of the fund. The balance is available for grants to cities, counties, and airport districts for airport and aviation purposes. The statute creating this fund amends the Public Utilities Code at Division 9, Part 1, Chapter 4, Article 4, Section 21682, providing for a maximum grant of $2,500 for each airport, and conditioning this grant on matching funds being provided for the same purposes by the local government. Any remaining balance in the fund may be expended in accordance with Section 21684 by making allocations to cities, counties, and airport districts for the acquisition and development of airports.

Totals	$14,486,979	$15,906,100	$18,314,800

GENERAL ANALYSIS

This is a public assistance program financed by county, State, and the Federal Governments for needy persons without sight, or with impaired sight, who meet certain other requirements concerning residence, property, etc. Social Security Act amendments in 1961 increased the federal participation in categorical aid payments by $.80 per month per recipient. The 1961 legislative amendments effective January 1, 1962, increased the basic grant to $117.80 per month and the maximum grant to $167.80 including the $.80; provided for medical care of $15 per month per recipient; removed the legal obligation of relatives for support; permitted increases in the grant based upon cost of living and by making the full scope of the assistance standard available to recipients whose income now is insufficient and modified the state residence requirement.

Aid to Potentially Self-Supporting Blind (Assistance)

TOTAL EXPENDITURES *(General Fund)*	$396,711	$403,100	$473,100

GENERAL ANALYSIS

This is a public assistance program financed by county and state governments for needy persons without sight, or with impaired sight, who are unable to provide themselves fully with the necessities of life but are working on a plan for self-support. The Federal Government does not participate in this program. The 1961 legislative amendments effective January 1, 1962, increased the basic grant to $117.80 per month and the maximum grant to $167.80; provided for medical care of $15 per month per recipient; removed the legal obligation of relatives for support; permitted increases in the grant based upon cost of living and by making the full scope of the assistance standard available to recipients whose income now is insufficient; and modified the state residence requirement.

GENERAL ANALYSIS

This is a public assistance program financed by county, state, and the Federal Government. The primary purpose of the program is to provide family security and financial assistance for needy children who are deprived of parental support or care. It is designed to keep children in their own family unit with parental responsibility for the family living plan; if this is not possible, the best substitute care is provided in the home of a relative, a foster home, or a children's institution.

Legislation effective January 1, 1962, increased the maximum monthly foster care payments from $75 per child to an $80 average for all children; and modified the state residence requirement.

GENERAL ANALYSIS

This is a public assistance program financed by county, State, and the Federal Governments for needy persons who are permanently and totally disabled.

Amendments enacted by the 1961 Legislature effective January 1, 1962, increased average monthly expenditures to $100; removed the legal obligation of relatives for support; increased allowable scope of needs for services related to the recipients' disability, and liberalized the definition of disability; modified the state residence requirement, and provided for medical care of $15 per month per recipient.

Totals	$262,293,485	$283,272,700	$316,023,500

GENERAL ANALYSIS

This is a public assistance program financed by county, State, and the Federal Governments for needy persons at least 65 years old who also meet certain other requirements concerning residence, property, etc. Social Security Act amendments in 1961 increased federal participation in categorical aid payments by $0.80 per month per recipient. In accordance with Section 2025 of the Welfare and Institutions Code, this required an increase of $1.00 to the grant of which $0.20 was provided from the General Fund. This raised the basic grant to $96 per month and the maximum grant to $116. The 1961 Legislature increased the basic grant to $101 per month and the maximum grant t $166 effective January 1, 1962; removed the legal obligation o relatives to support the aged person when an undue financia burden is imposed; permitted increases in the grant based upo cost of living and by making the full scope of the assistanc standard available to recipients whose income now is insufficient; modified the state residence requirement; and repeale the citizenship requirement.

Totals	–	$22,913,000	$60,139,000

GENERAL ANALYSIS

Legislation effective January 1, 1962, authorized matching of federal funds for the medical care of aged persons who are not recipients of Old Age Security and who cannot provide for their needed medical care. Such matching expenditures in part consist of county funds now being used and in part from the legislative authorization to use the unencumbered balance in the Medical Care Premium Deposit Fund. The cost is estimated at $1,588,195 from the Medical Care Premium Deposit Fund and $18,752,805 from the General Fund for 1962-63.

County Administration of Assistance Programs

GENERAL ANALYSIS

The cost of local administration of the aged, blind, children, disabled, and medical assistance for aged programs is borne by the county and the Federal Government. Federal funds for county administration are received by the State and forwarded to the counties on the basis of estimates prepared by the State Department of Social Welfare subject to adjustment upon receipt and audit of the counties' statements of expenditures.

SUBVENTION EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63
TOTAL EXPENDITURES *(General Fund)*	$1,330,112	$1,401,680	$1,491,840

GENERAL ANALYSIS

This program provides for the reimbursement of expenses incurred by counties and cities who may maintain approved services for the licensing and inspection of agencies for child care and home finding, and agencies for the care of the aged in accordance with the provisions of Sections 1622 and 2302 of the Welfare and Institutions Code. This reimbursement is in the amount found necessary by the State Department of Social Welfare for proper and efficient administration, not to exceed $65 per year for each new or renewal license issued.

An allocation from the Emergency Fund in the amount of $97,676 is required because of a substantial increase in the number of licensing actions over those in 1961-62 fiscal year budget estimate.

Reimbursement to Counties for Administration and Cost of Care of Adoptions

SUBVENTION EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63 *
TOTAL EXPENDITURES *(General Fund)*	$2,558,752	$3,301,294	$4,079,047

GENERAL ANALYSIS

County adoption agencies are licensed to accept relinquishments, make adoptive placements of children, and to investigate and report on petitions for adoption field independently. These agencies are reimbursed for administrative costs pursuant to Section 1641 of the Welfare and Institutions Code. Fees received from adoptive parents (up to $300) are abated to the cost of administration.

The cost of care for children committed to the State Department of Social Welfare or a public adoption agency pursuant to Section 226(c) of the Civil Code is reimbursed by the Stat

Provision is made in the estimate for 1962-63 to licen 1 additional county which has expressed an intent to becon licensed for the acceptance of relinquishments.

An allocation from the Emergency Fund in the amount $322,466 is required in the current year. There has been sudden and substantial increase in the number of relinquis ments caused by legal action against improper adoptions.

Salaries of Superior Court Judges

TOTAL EXPENDITURES *(General Fund)*	$3,563,265	$3,846,853	$3,952,000

GENERAL ANALYSIS

Under the provisions of Section 68206 of the Government Code, the State contributes toward the salary of each judge of the superior courts in accordance with the population of the county as determined by Section 68207 of the Government Code.

The amount budgeted is to provide the State's share of salaries of the 332 judges in 1961-62 and 335 judges in 1962-63 authorized by existing law.

Included in the total is 1 authorized position not yet established in San Joaquin County which is contingent upon action of the board of supervisors as provided by Section 69598 of the Government Code.

The following statement shows the contribution by the State and by the county toward the salary of each judge as provided under Section 68202 of the Government Code:

Population of county	*State's share*	*County's share*	*Total salary*
250,000 or more	$11,500	$9,500	$21,000
100,000 or more but less than 250,000	13,500	7,500	21,000
More than 40,000 but less than 100,000	11,400	7,500	18,900
40,000 or less	13,400	5,500	18,900

Contributions to Judges' Retirement Fund and Health and Welfare

SUBVENTION EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63	CHANGE FROM 1961-62
TOTAL EXPENDITURES *(General Fund)*	$253,947	$280,647	$302,411	

GENERAL ANALYSIS

Under the provisions of Section 75101 of the Government Code, the State contributes to the Judges' Retirement Fund an amount equal to 2½ percent of the salary for each of the established judgeships of the superior and municipal courts. Provision is made for contributions relating to 332 superior court judgeships and 240 judges of the municipal courts, all of which have been authorized by law for the current year. Three additional judgeships of superior court have been authorized by law to be established effective July 1, 1962.

Under provision of Chapter 1236 Statutes of 1961 the State is authorized to pay up to a maximum of five dollars per month per eligible employee toward the cost of a basic health benefits plan.

TOTAL EXPENDITURES *(General Fund)*	$350,000	$500,000	$500,000	

GENERAL ANALYSIS

Pursuant to Sections 970-973 of the Military and Veterans Code, the State may reimburse the counties for part of the cost of county services maintained for assistance to veterans and the dependents of deceased veterans in presenting and pursuing such claims as the veterans may have against the United States arising out of war service and in establishing the veteran's right to any privilege, preference, care, or compensation provided for by the laws of the United States or of this State. The amount paid each county, conditioned upon the observance of certain standards and regulations, is determined by the California Veterans' Board except that the payment toward the salary of the county service officer shall not exceed $75 per month. Payments are also made for partial cost of assistants' salaries and operating expenses.

The 1962-63 Budget continues the same level of expenditures as authorized for 1961-62. This provides sufficient funds for all counties to participate in the program if they so desire.

GENERAL ANALYSIS

To secure more adequate and uniform enforcement of the provisions of the Agricultural Code, the State participates in the payment of salaries of the county agricultural commissioners as provided by Section 63.5 of the Agricultural Code. Participation is limited to the lesser of $3,300 per year or two-thirds of the salary of each commissioner. Fifty-four counties are participating in this program. Variation in amounts between years depends upon changing salaries paid the commissioner by the various counties.

Assistance to Counties for Maintenance of Juvenile Homes and Camps

SUMMARY

SUBVENTION EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63	CHANGE FROM 1961-62
TOTAL EXPENDITURES *(General Fund)*	$1,948,670	$2,404,873	$2,843,230	$438,357 (18.3%)
Number of camps	36	39	41	
Average number of wards	1,879	2,151	2,519	

GENERAL ANALYSIS

Under the provisions of Section 880 through 890 of the Welfare and Institutions Code, the board of supervisors of any county may establish juvenile homes, ranches, or camps. Wards are committed by the juvenile courts to these facilities in lieu of commitment to the Youth Authority.

Certain standards prescribed by the Youth Authority must be met by the counties before they are entitled to receive any state funds. Reimbursement to counties are made for one-half of operating costs, but not in excess of $95 per month per child. There is no limit as to the number of camps for which any one county may be reimbursed.

It is estimated that counties will be reimbursed for an average population of 2,519 boys and girls during the 1962-63 fiscal year with a total of 41 camps in operation at the end of the year.

TOTAL EXPENDITURES *(General Fund)*	$1,145,559	$398,915	$330,000	

GENERAL ANALYSIS

In accordance with the provisions of Section 891 of the Welfare and Institutions Code, the State may reimburse the counties for one-half of the cost of construction and equipping juvenile homes, ranch camps, or forestry camps not to exceed $3,000 per bed unit. Construction includes construction of new buildings (including related site development and utilities) or remodeling of existing county owned buildings into a juvenile home, ranch, or forestry camp. This program is administered by the Department of the Youth Authority.

The original appropriation made for this purpose was available for 3 years while subsequent budget acts have been made available for a period of 2 years with not more than a specific portion of the appropriation available in the first year. This method of appropriation takes into account a realistic construction time for these facilities and allows the State to make commitments to counties for a planning and construction time of more than one year.

Extention of availability of the funds provided by the Budget Act of 1960 is proposed to finance the State's share of construction planned for 1962-63.

Under this program a total of 1,640 beds will have been built from the time of inception of this program in 1957-58 through 1962-63.

[a] Prior year encumbrances of $1,259,115 for 1960-61 and $1,272,000 for 1959-60 are shown on Schedule 1 as a surplus adjustment during the 1961-62 fiscal year.

The juvenile border patrol is a co-operative program between the State and the City of San Diego, in accordance with Section 1760(d) of the Welfare and Institutions Code, to control the flow of juveniles crossing into Mexico. The State and the City of San Diego each contribute towards this program which will help to prevent juvenile delinquency.

TOTAL EXPENDITURES *(Peace Officers' Training Fund)*	$81,369	$577,750	$320,955	—$256,795 (—44.4%)

GENERAL ANALYSIS

In accordance with Chapter 1823, Statutes of 1959, allocations of moneys collected from a 5 percent assessment on criminal fines will be made to those cities and counties which adhere to standards for recruitment and training established by the Commission on Peace Officers' Standards and Training. State participation is restricted to an amount, not to exceed 50 percent of salaries and wages, and expenses of those officers meeting the standards and participating in training, and is contingent upon the amounts available in the Peace Officers' Training Fund.

There are 429 jurisdictions in California eligible to participate in the program. In 1958, before the inception of this program, 72 jurisdictions were up to the standards presently established by the commission. During the 1961-62 fiscal year 204 jurisdictions serving 12,968,167 people will qualify for assistance. Continued effort will be made to bring the remaining 225 jurisdictions, serving 2,764,561 people, into the program during the 1962-63 fiscal year.

Assistance to Counties for Prosecution and Conduct of Homicide Trials

TOTAL EXPENDITURES *(General Fund)*	–	–	$35,000

GENERAL ANALYSIS

In accordance with the provisions of Sections 15200 through 15204 of the Government Code, the State may reimburse counties for that portion of the cost of prosecuting and conducting homicide trials that exceeds the tax money derived by the county in excess of 10 cents on each $100 on the property assessed for purposes of taxation within the county.

Costs incurred by the county in the trial or trials can include costs incurred by the district attorney in investigation and prosecution, by the sheriff in investigation, and all other costs incurred by the county in connection with the trial including witness fees and expenses, reporter fees, and costs in prepari transcripts.

The Director of Finance is charged with the responsibility determining if the county meets the prescribed conditions, t authority to grant funds for this purpose, and the authority establish rules and regulations to carry out the law.

This program was established by Chapter 2115, Statutes 1961 which included an appropriation of $35,000 from t General Fund for 1961-62. This budget continues the sa level of appropriation for 1962-63.

Grants to Soil Conservation Districts

TOTAL EXPENDITURES				
(General Fund)	–	$152,987	$100,000	—$52,987 (—34.6%)
(State Lands Act Fund [a])	$141,007	–	–	

GENERAL ANALYSIS

Section 9063.1 of the Public Resources Code authorizes the State Soil Conservation Commission to make grants within appropriated funds to soil conservation districts, organized pursuant to Division 9 of the Public Resources Code, to assist such districts in carrying out any work they are authorized to undertake whenever the commission determines that such work is necessary for the welfare of the people of the State.

Chapter 892, Statutes of 1961, abolished the State Lands Act Fund and repealed Section 6816.1 of the Public Resources Code whereby a continuing appropriation of $100,000 was made for grants to soil conservation districts. On July 1, 1961, the available balances of appropriations made by Section 6816.1 of the Public Resources Code were transferred to the General Fund for the same purposes and period in accordance with Section 16346 of the Government Code.

The projects must advance the conservation, use, and management of soil and water resources on croplands, forest, range, and watershed lands within soil conservation districts.

The projects fall within the following general categories:

CONSTRUCTION Projects consist of channel realignment and lining, riprap of stream banks, construction of drainage facilities and miscellaneous other construction and planting projects.	$95,000	$87,082	$48,875	
PLANNING Grants are made to districts for preliminary plans prior to actual construction of projects. In many areas studies are made to determine the feasibility of a project.	37,500	45,418	50,775	
INVESTIGATION Grants made in this area are for the testing of sections of ditch banks and types of grasses for growth and spraying to remove objectionable growths.	3,700	8,500	350	
DEMONSTRATION The basic justification for the project is to illustrate proper methods in soil conservation work.	10,097	–	–	
Grants to Soil Conservation Districts	$146,297	$141,000	$100,000	
Less savings in prior year grants returned	—5,290	–	–	
Unallocated	–	11,987	–	
TOTAL EXPENDITURES, GRANTS TO SOIL CONSERVATION DISTRICTS	$141,007	$152,987	$100,000	—$52,987

Apportionment of net receipts from ⅝ cent per gallon of the motor vehicle fuel tax. Fixed charge prescribed by Sections 194, 2107, and 2107.5, Streets and Highways Code (State Highway Fund)	$37,026,246	$36,287,596	$38,116,548

---

[a] Chapter 2127, Statutes of 1961, creates the Airports Assistance Fund from moneys appropriated from the Motor Vehicle Fuel Fund for administration and allocation to local agencies for acquisition and development of airports. See Subventions for Public Works.

CLASSIFICATION OF FUNDS IN THE STATE TREASURY

The budget totals of revenues and expenditures reflect the activities of many separate funds. See Schedule 5 for complete list of these funds. They are segregated into the following classifications:

GENERAL FUND—Consists of money received into the State Treasury not required by law to be credited to any other fund, to be used for general purposes of State Government.

SPECIAL FUNDS—Funds created to receive certain revenues or to finance particular activities which are for general purposes of State Government or are for activities subject to the regulatory or police powers of the State.

OTHER FUNDS—See Schedule 5 for list of funds which are not included in the budget totals. They consist of moneys which were derived from sources other than general or special taxes, licenses, fees or other state revenues. There are receipts from the Federal Government, funds created for accounting purposes, receipts from sale of lands, or moneys held in trust. Funds not included in the budget totals are segregated into the following classifications:

Working Capital and Revolving Funds—Funds created to finance services for governmental agencies for which charges are made at cost to maintain a fixed accountability. The charges are reflected as expenditures in the budget at the agency receiving the commodity or service.

Public Service and Enterprise Funds—Activities operated under state control for the benefit of the public. Funds are derived from charges to those who use the service and no support is derived from taxes, licenses or other state revenues. These functions are not subject to the regulatory or police powers of the State.

Bond Funds—To hold proceeds from the sale of bonds and to finance projects for which the bonds were authorized. The cost to the State is charged at the time interest payments are made and when the bonds are redeemed.

Retirement Funds—Moneys held in trust by the State for retirement benefit payments.

Debt Service Funds—Moneys held by the State to be used for payment of interest or for redemption of bonds.

Trust and Agency Funds—Funds holding moneys in trust pending disbursement to trustors, moneys received from the Federal Government to be expended for specific purposes, and other funds which do not derive their sources from taxes or other state revenues, or are in the nature of transistory funds created for the convenience of accounting receipts or disbursements which are not necessarily revenues or expenditures.

TREASURY FUNDS FOR WHICH NO DETAILED TRANSACTIONS ARE REPORTED IN THE BUDGET

Ballot Paper Revolving Fund: The fund is used by the Secretary of State to purchase paper for sale to counties and municipalities for their use for election ballots.

Old Age and Survivors Insurance Revolving Fund: The fund is used by the State Employees' Retirement System to clear employer and employee contributions under the Federal Old Age and Survivors Insurance Program from public agencies included in the agreement between the State and the Federal Government.

Opportunity Work Centers Revolving Fund: Provides for purchase and rental of equipment for Blind Centers.

State Payroll Revolving Fund: The fund is used by the State Controller for payment of salaries through the Central Payroll System.

India Basin Sinking Fund: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

San Francisco Seawall Sinking Fund No. 2: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

San Francisco Seawall Sinking Fund No. 3: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

San Francisco Seawall Sinking Fund No. 4: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

School Land Fund: A nonexpendable endowment fund for public school purposes. Revenues consist of payment of principal and purchase price on sale of school lands. The interest received on the investment of this fund is deposited in the School Fund.

Special Deposit Fund: Accumulation of numerous trust funds deposited by state and private agencies for a specific purpose. This fund also contains unclaimed checks and deposits pending either payment to the proper persons or transfer to the General Fund. The transactions of this fund are so numerous and so indefinite that no attempt is made to estimate the volume that will flow through the fund.

State Park Contingent Fund: Receives moneys from gifts, bequests, from municipal or county appropriations, or donations, for improvements, additions, or administration of the state park system. The amounts received are disbursed in accordance with the provisions of the donations.

Surplus Money Investment Fund: Excess money in those funds which do not have other provision for investment may be transferred to this fund, the pooled resources are invested and the interest earned is prorated to the contributing funds.

Tax-deeded Land Rental Trust Fund: Receipts are derived from leases made by the State Controller covering property deeded to the State for taxes. The rentals are paid semiannually to the county in which the property is located for distribution to the taxing agencies.

Treasury Trust Deposits: Provides for the State Treasurer's Central Banking System.

Unclaimed Property Fund: This fund accounts for all unclaimed moneys held by the State.

Condemnation Deposits Fund: Contains deposits held in trust pending settlement of court cases in condemnation proceedings.

CHANGE IN NET AVAILABLE BUDGET ASSETS	$817,965	—$330,142	—$36,932	—$293,210

GENERAL ANALYSIS

Objectives

The Correctional Industries program of the Department of Corrections was established to provide a balanced and diversified work program enabling inmates to acquire the good work habits and occupational skills necessary for successful adjustment in order that they might be returned to free society as useful citizens. This program plays a significant role in the elimination of inmate idleness which would otherwise contribute to the causes of both mental and physical degeneration.

Another objective of the Correctional Industries program is to develop work projects which will contribute to the rehabilitation of prisoners with minimum competition with private industry and free labor.

Program and Performance

The Correctional Industries Commission, representing organized labor, industry, agriculture, and the general public, is the policymaking body for this activity. It is empowered to recommend productive industrial and agricultural enterprises for the prisons. This includes determining the advisability and suitability of establishing, expanding, diminishing, or discontinuing any industrial or agricultural enterprise involving a gross annual production of not more than the maximum determined by the formula established by the Legislature.

The Correctional Industries program includes 27 industrial and 15 agricultural enterprises which have been established in all the correctional institutions of the department except the Medical Facility. About 3,200 men or approximately 13.5 percent of the total prison population will be employed during the 1962-63 fiscal year. Activities include industrial operations such as the license plate factory at Folsom and the cotton textile mill at San Quentin.

The container and paper converting enterprises were activated during the early months of 1961 at Soledad and are now in full production.

Equipment has been ordered for the shoe enterprise approved for the California Men's Colony. It is anticipated that this industry will begin actual production in March 1962. Equipment for the knitting mill also approved for Los Padres will be ordered and installed during the early part of 1962. Approximately 215 inmates will be employed in the combined operation of these enterprises.

Restyled office furniture and new functional office suites have been widely accepted by all governmental agencies. Research and design of new production with emphasis on metal items is progressing at a satisfactory pace.

Production of the 1963 issue of motor vehicle license plates is progressing on the basis of 2 shifts per day. With completion of the 1963 motor vehicle license plates 5 correctional officers are proposed to be abolished as of June 30, 1962.

Total sales of products, exclusive of 1963 license plates, resulting from the employment of inmates in this work program totalled $7,616,682 during the 1960-61 fiscal year. The major portion of all items produced are used or consumed by wards of the State. The remainder is sold to other tax supported governmental agencies.

The poultry enterprise at the Correctional Training Facility is to be discontinued as of June 30, 1962.

New positions proposed on a workload basis include 1 industrial engineer in the headquarters' office; 1 accounting technician III and 1 storekeeper I at the Correctional Training Facility; 1 accounting technician III, 1 storekeeper I, and 1 metal products factory foreman at the Deuel Vocational Institution; 1 wood products factory foreman at the California Institution for Men; 1 maintenance mechanic, 1 accounting technician II, and 1 correctional officer at the California Men's Colony; and 1 machinist at the State Prison at San Quentin.

GENERAL ANALYSIS

Objectives

The Inmate Welfare Fund is a trust fund held in the State Treasury and administered by the Director of Corrections for the benefit, education, and welfare of inmates in institutions under the jurisdiction of the Department of Corrections. The fund was established by Section 5006 of the Penal Code in 1945. The primary source of revenue for the fund is profits from the sale of items to inmates at canteens maintained in each institution under the Department of Corrections. Other revenue is derived from sale of handicraft items, donations, and other miscellaneous sources. Funds so received are deposited in the State Treasury and allotted to the various institutions through departmental budgetary procedures. These allotments provide funds for the operation of the canteens and hobby shops and for the purchase of athletic and recreational equipment and supplies such as books, television sets, small games, and rental of motion picture films.

Program and Performance

The gross revenue for the Inmate Welfare Fund is in excess of $2,000,000 annually. Of this revenue, an estimated 93.2 percent will be used in operating the canteens, handicraft shops, and meeting administrative expenses. The remaining 6.8 percent is available for the recreation and welfare of the inmates including the purchase and repair of television sets, film rentals, fiction books for the libraries, all athletic and recreational supplies not a part of the organized athletic or education program, and the cost of the inmate newspaper. The current major program of the Inmate Welfare Fund is the establishment of the initial complements of merchandise, personnel, supplies, and equipment at the Conservation Center and the Rehabilitation Center.

A total of 8 proposed new positions are included in the 1962-63 fiscal year. These include 2 canteen managers, 2 storekeepers and 2 accounting technicians to provide staffing for the Conservation Center and the Rehabilitation Center. An arts and craft teacher which was formerly financed from Support is proposed to supervise and conduct the handicraft program at the Medical Facility. 1 correctional officer is proposed to supervise the handicraft program at Deuel Vocational Institution.

INDUSTRIES FOR THE BLIND MANUFACTURING FUND

LINE	SUMMARY AND GENERAL ANALYSIS	ACTUAL 1960-61	ESTIMATED 1961-62	PROPOSED 1962-63

GENERAL ANALYSIS

Objectives

The Industries for the Blind operates 3 subsidized production centers located at Los Angeles, Oakland, and San Diego. These centers offer factory employment to blind, partially sighted, and physically handicapped persons enabling them to contribute to their own support.

Program and Performance

The manufacture of such items as brooms, mattresses, mops, pillowcases and other textile items, surgical wrappers, rugs, brushes, plastic articles, and rubber mats constitutes the main production program together with the fabrication and assembly of many products on a subcontract basis.

The administrative and physical plant operating expenses are a direct charge against the General Fund and manufacturing activities are financed from working capital supplied by the Industries for the Blind Manufacturing Fund into which the proceeds from the sale of the products are deposited. For many years, these centers were considered as separate entities with little direct central administration. The goal is now toward development of a strong central administration to co-ordinate the activities of the centers and provide adequate administrative control over the program.

The program is administered by a central office headquarters staff under the general direction of the Chief, Division of Special Schools and Services of the Department of Education.

During the 1960-61 fiscal year, 225 persons or 159 full-time equivalent blind or otherwise physically handicapped workers were employed in the 3 centers, and the payroll for these workers was $397,376. The program for 1962-63 is based on the employment of 295 persons or 215 full-time equivalent workers with a payroll of $549,881.

Sales for the 3 centers amounted to $2,226,195 and the cost of goods sold, including salaries and wages and other adjustments amounted to $2,276,212, resulting in a loss of $50,017 for the 1960-61 fiscal year. The financial transactions of the Industries for the Blind Manufacturing Fund for these centers, excluding administrative costs borne by the General Fund, are summarized in the table below.

A marketing survey, completed under the direction of a management consulting firm, recommended a change in the marketing program with increased emphasis on commercial outlets and subcontract work. Sales and marketing specialists have recently been employed to further the sales program and carry out the recommendations of the survey. Quality control supervisors employed during 1959-60 have resulted in improved quality of the products produced by the centers and better management control of factors affecting the pricing structure of manufactured products.

These and other management actions are directed to a more economical program in terms of State support and to a better opportunity for the blind workers to have steady productive employment at a reasonable rate of compensation.

Summary of Operations

GENERAL ANALYSIS

Objectives

The State Educational Agency for Surplus Property is authorized to co-operate with the Federal Government and its agencies in securing federal surplus property, including surplus foods, for distribution to eligible institutions.

Program and Performance

Surplus property of all federal agencies is made available to schools and other institutions through this agency. All expenses of procuring, handling, and distributing such property are paid by the agency and recovered by nominal service charges. Any excess service charges are refunded to the participating agencies after the close of each fiscal year. Reserves are maintained to meet any unliquidated obligations.

The increasing importance of this agency's operations is indicated by the following tabulation:

Year	*Fair value of property distributed*
1954-55	$13,983,511
1955-56	17,083,736
1956-57	20,216,696
1957-58	21,656,349
1958-59	27,928,933
1959-60	33,123,054
1960-61	30,984,884
1961-62 (estimated)	35,000,000
1962-63 (estimated)	35,000,000

The level of expenditures budgeted for the agency is determined by the availability of surplus hardware and food, as well as requests from interested participating agencies. In general terms, the work program includes the screening of available property; warehousing that which is received; processing and repairing where required; and distributing and checking for compliance. The work force required has increased in proportion to the workload as measured in terms of service and handling charges made. Such increase is shown in the following table, with the number of positions given being equivalent full-time positions, including temporary help and overtime:

Year	*Service and handling charge*	*Service charges as a percent of fair value*	*Work force*	*Average service charge per man-year*
1954-55	$1,424,388	10.2	124.6	$11,432

GENERAL ANALYSIS

Objectives

The Department of Finance through the Service Revolving Fund provides a variety of services to State agencies. These services include operation of an automotive pool; purchasing and distribution of supplies; printing and reproduction of various types of materials; and maintenance and repair of communications equipment, office machines and automotive equipment.

Chapter 875, Statutes of 1961, created the Service Revolving Fund as a combination of the Printing Fund and the Purchasing Revolving Fund.

Program and Performance

All these services are financed by charges to the using agencies on a nonprofit basis. Supplemental financing in the form of augmentation from the General Fund is used to provide the initial equipment and inventories and subsequent additions to them necessary for the operations of various functions. Total operations require an augmentation of $184,215 in 1962-63 after using prior augmentations and available surpluses.

In order to provide the most economical and efficient services to State agencies in 7 general service areas, the following divisions of this fund have been established:

REPRODUCTION

This unit provides duplicating service to all State agencies in the Sacramento area. A new position is requested to provide additional service to agencies.

CENTRAL STORES

By stocking commonly used office supplies thereby permitting purchases in large quantities at low cost, this unit provides economical purchasing service to all State agencies. Warehouses are now operated in Sacramento and San Francisco. A new warehouse in Los Angeles will go into operation early in 1962 resulting in substantial savings to agencies in the Southern California area.

OFFICE MACHINE REPAIR

This unit provides office machine preventive maintenance service in Sacramento as well as overhaul and repair to the approximately 8,350 State-owned typewriters, adding machines and calculators. A new position is requested to service additional electric typewriters.

AUTOMOTIVE MANAGEMENT

The automotive pool provides efficient use of automobil resulting in low cost to the State and state agencies. Garag are maintained in Fresno, Los Angeles, Oakland, Sacrament Berkeley, and San Francisco. Automotive pool services a provided at 5 metropolitan airports. The 2,386 vehicles pre ently in the pool will be driven 37,000,000 miles in 1961- An additional 168 automobiles will be required in 1962-63 bas on an estimated 39,800,000 miles to be driven in that yea Three hundred and fifty cars will be replaced upon reachi 100,000 miles in the current year and 370 will be replaced 1962-63. The function also provides an airplane for transport tion into areas not having airline service and for emergency us

In 1961-62 the Sacramento Garage changed from a contra tual arrangement to doing its own car washing—which is e pected to be less expensive. One man-year was temporari authorized in 1961-62 and 1.5 man-years are requested for th purpose in 1962-63.

RADIO MAINTENANCE

This unit operates 39 radio maintenance shops at vario locations throughout the State involving 66 radiotelephone tec nicians. Engineering service is provided to all state agenci having such equipment. The systems of the Highway Patr Disaster Office, Department of Justice, Department of Corre tions, Youth Authority, State Colleges and the Resourc Agency involve 8,000 units of state-owned radio equipment. Tw clerical positions were transferred to the Department of F nance, Administrative Service Office in 1961-62, to centrali the accounting for this function.

RENTED BUILDINGS

The Department of Finance leases a building in Santa An which it has sublet to state agencies.

PRINTING DIVISION

This division produces the necessary printing for state age cies and the Legislature, manufactures textbooks for publi schools, operates the Legislative Bill Room, and operates Documents Section where sales are made of state document The Documents Section also distributes material required unde the Library Distribution Act. Section 19.5, Budget Act of 196 requires that any proposed capital addition to the State Printin Fund be proposed as an appropriation out of the General Fun The 1962-63 fiscal year budget includes $107,580 for thi purpose.

SOIL CONSERVATION DEVELOPMENT FUND

SUMMARY AND GENERAL ANALYSIS	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63	CHANGE FROM 1961-62
SUMMARY				
TOTAL WITHDRAWALS				
Support *(Soil Conservation Development Fund)*	$8,148	$8,207	$8,438	$231
Loans to soil conservation districts *(Soil Conservation Development Fund)*	18,174	20,000	20,000	–
Totals	$26,322	$28,207	$28,438	$231 (0.8%)

GENERAL ANALYSIS

Objectives

The Soil Conservation Development Fund was created by Chapter 1032, Statutes of 1949, as amended, with an appropriation of $1,000,000 to provide for the acquisition of soil conservation machinery, equipment, and buildings and rental thereof to soil conservation districts. Section 12.2 of the Budget Act of 1958 returned $400,000 of this amount to the General Fund in 1957-58 as the full amount was no longer required for operation of the fund. The fund is administered by the State Soil Conservation Commission.

Program and Performance

Equipment requests are investigated to determine whether there is appropriate need, to select suitable types, prepare purchase specifications, receive deliveries of equipment, and regularly inspect the operation and maintenance of equipment.

During recent years, federal surplus equipment has been available to soil conservation districts and the purchase of equipment for districts with state funds has decreased in volume. Loans are now made primarily for reconditioning and modifying the surplus equipment to adapt it for soil conservation use.

Loans to Soil Conservation Districts			
Primary equipment	$18,174	$20,000	$20,000
Administrative Expenses			
OPERATING EXPENSES			
Pro rata charges	$8,148	$8,207	$8,438
TOTAL WITHDRAWALS	$26,322	$28,207	$28,438

RECONCILIATION WITH APPROPRIATIONS

Personnel man-years	1,764.9	2,104.5	2,444.2	339.7

GENERAL ANALYSIS

The organizational budget of the Department of Water Resources is financed through the Water Resources Revolving Fund from Support and Capital Outlay appropriations deposited therein. All personnel and operating costs are accounted here, while direct costs of acquisition and construction are accounted from Capital Outlay appropriations. See pages 669 to 708 for program explanations requiring these departmental expenditures.

EXECUTIVE

The executive office of the department consists of the Director, 3 deputy directors, a special representative, and 4 staff offices—internal auditor, legal, public information, and policy and program. The Policy Office was established in 1959-60 to provide continuing assistance to the directorate in policy formulation and program evaluation. At this level the considerations that affect the policy framework within which the department operates can most effectively be evaluated. The 11 positions for this office are shown as proposed new as a result of a legislative limitation in the 1961-62 Budget.

The 5 additional positions for the Internal Audit Office are to implement the internal audit control function as an integral part of the department's program for improvement of fiscal management and financial responsibility. Three of these positions were established in the current year while an additional 2 are proposed for 1962-63.

The 4 additional legal positions are primarily due to increased acquisition and contract work. Three attorneys were established in 1961-62 with clerical assistance proposed for 1962-63.

DIVISION OF ADMINISTRATION

The Division of Administration has responsibility for the functions of general office services, fiscal management, personnel management, administrative analysis, and rental property management.

The Division of Administration plans, organizes, and accomplishes the business management activities of the department and supports the administrative services necessary to accomplish the engineering activities of the department. Incidental thereto is the recommendation of policies which bear on the efficiency, organization, fiscal responsibility, and personnel management of the department, and the development of procedures to carry them out.

Position increases are proposed for added workload in the Comptroller's Branch, the Personnel Management Branch, and the Services and Supply Branch. The most significant increase in the Comptroller's Branch is the addition of 3 accountants for a contract audit program. An accounting officer is proposed for development of an accounting manual, systems and procedures improvement, and technical training. Also, 3 clerical positions are required to meet increased accounting workload. The increasing workload of personnel transactions and personnel management problems that parallels the growth of the department requires the addition of a personnel analyst and 1 intermediate clerk. Another clerical position is proposed to help with the program of intensified recruitment of engineers. A second training officer is necessary to meet the general and safety training needs of the department. The safety training program is particularly important with the increase in the construction program. Additional duplicating, filing, and contract control work in the Service and Supply Branch require the proposed increase in temporary help.

ENGINEERING MANAGEMENT

Engineering Management comprises the functions of the Chief Engineer's Office, together with his principal staff advisor's, the Program Control Office and Safety Office, and supervision of dam safety.

The Chief Engineer is the primary engineering officer of the department. He plans, directs, and supervises the technical and engineering activities of the department; develops and recommends policies concerning these activities; and reviews and recommends action regarding all engineering work and related technical work of the department.

The Program Control Office establishes, maintains, and supervises the operation of a uniform system of control of engineering programs in order to, (a) provide the Director and Chief Engineer with positive management control of the initiation, scope, execution, and financing of line programs, and (b) to insure full co-ordination of program schedules, work authorizations, and work orders. It prescribes and maintains the department's progress and status reporting system.

The Safety Office is staff to the Chief Engineer and responsible for assuring that the department's activities are carried on safely, including dealing with safety problems encountered during both the design and construction phases of the State Water Facilities.

The Supervision of Safety of Dams Office has responsibility for supervising design, construction, maintenance, repairs, alterations, and operation of all dams in the State, above a certain minimum size and capacity, except those owned by the Federal Government, to the extent necessary for the safety of life and property. The staff will review plans for dam construction prepared by the department in the same manner as plans prepared by outside agencies.

A complete integrated plan for Program Control was developed during 1960-61 and staff was included in the 1961-62 Budget. Seven of these positions are shown as proposed new in the 1962-63 Budget as a result of a limitation in the 1961 Budget Act. One clerical position is proposed for 1962-63 to handle the expanding workload. The need for Program Control staff shown in the Chief Engineer's Office and the division, branch, and district offices results from the complexity and magnitude of the department's program. For instance, the department now has 350 separate work programs in the engineering field. This, together with production requirements placed on the department by the State Water Facilities as well as the planning and data gathering programs, requires systematic scheduling, control, and co-ordination.

Additional permanent staff for supervision of dams is required to handle the increased field inspection workload. One additional consultant for 1962-63 is also proposed for this activity.

DIVISION OF RESOURCES PLANNING

The Division of Resources Planning provides staff services to the Chief Engineer in all phases of water resources planning. In addition, it has the line responsibility for studies of statewide scope that cannot be assigned to area branches, for applied research programs conducted by the department, and for Federal-State co-operative programs of a planning nature. The division exercises staff responsibility for all area branch activities relating to (1) collection of basic water-related data, (2) maintenance of current inventories of water resources, utilization, and requirements, (3) planning of water resources development to best meet the needs of the people, and (4) certain statutory services in the interest of public health and welfare.

In 1962-63, 1 new position is requested to carry out the division's responsibilities in connection with "Ground Water Basin Protection Studies" conducted pursuant to Chapter 1620, Statutes of 1961. Two new positions are requested to augment the staff involved in studies of crustal strain and fault movement, and 1 additional position is proposed for program control.

One position is abolished in the reports administration section in 1962-63 due to workload readjustment.

WATER RESOURCES REVOLVING FUND—Continued

DIVISION OF OPERATIONS

The Division of Operations is the staff organization responsible for the establishment of standards and criteria for operation and maintenance of the State Water Facilities and Flood Control Projects; the physical operation and maintenance of State Water Facilities and Flood Control Projects under the jurisdiction of the department; negotiation of water and power contracts and all other contracts necessary for project operation and for obtaining of reimbursement for all project services; the administration of watermaster service throughout the State; and for providing staff assistance to the Chief Engineer, branches, and other units of the department in matters relating to operation and maintenance of project facilities; the functioning of the Flood Operations Center; and for the co-ordination and implementation of the Federal-State River Forecast Center.

Proposed new positions include 1 Associate Engineer required for flood operations and water supply forecasts and 1 position for program control. The significance of the power aspects of the water program requires further development in the Power Branch Program with the addition of 4 positions. A new section will be activated in the Contracts and Repayment Branch with the development of a staff of contracts administration specialists. One additional position is required for this purpose.

Department of Water Resources

WATER RESOURCES REVOLVING FUND—Continued

TECHNICAL SERVICES OFFICE

The Technical Services Office provides professional, consulting, and technical services to all divisions, branches, and offices, for the programs of the department. These services are totally reimbursed by charges to the programs, and include:

1. Engineering Laboratories—Statewide laboratory standards, and testing in concrete, soils, chemical, and fluid mechanics.
2. Geologic Services—Staff geology review, ground water geology, geotechnics, and subsurface exploration.
3. Graphic Services—Statewide drafting standards, displays and exhibits, reproduction, and photographic services.
4. Mapping and Surveying—Statewide mapping co-ordination, aerial photo control, special instrument crews, photogrammetry, and planimetry services.
5. Engineering Computations—Engineering problem programming and electronic computer and data processing operations.
6. Mobile Equipment Management—Acquisition, accountability, and maintenance of heavy equipment, trailers, an mobile power units.

The administrative assistant II will supply administrativ services to the Technical Services Office.

The increase of 4 positions in the geology and Maps and Surveys Branches reflect increased requests for services from th specialties involved.

The 4 additional graphic service positions result from increases in this field due to the increase in construction an related activities of the department.

Six specialized positions in statewide mapping and laborator activities are abolished in 1962-63 based upon decreased demand for these services.

Other service increases require 4.1 man-years of temporar help and consultant services.

[a] Includes 7 positions established in the current year and shown as proposed new in the 1962-63 fiscal year budget.

Department of Water Resources

WATER RESOURCES REVOLVING FUND—Continued

DIVISION OF DESIGN AND CONSTRUCTION

The Division of Design and Construction has responsibility for design, construction, and acquisition of state water projects, and standardization of all design and construction work on a department-wide basis, including review for technical adequacy of work in specialized areas. The division also has responsibility for the design and supervision of construction of hydraulic structures for other state agencies.

Increases in permanent personnel, temporary help and consulting services are due to requirements for executing the water development program as outlined in the program budget.

Ten positions are abolished as a result of workload readjustment.

AREA MANAGEMENT

Area Management includes the Assistant Chief Engineer, the area branches, and the Southern District Office. The Assistant Chief Engineer plans, directs, and supervises the work of the area branches and the Southern District Office. The branches and the district office carry out most of the planning and operational activities of the department. In addition, the Southern District Office has initial responsibility for the design, right-of-way, and construction work in the southern part of the State.

The branches and the district are generally organized to manage the department's programs based on natural hydrographic boundaries. This organization facilitates the administration of the department's many investigations, data collection programs, and other activities to emphasize the varying needs of the different areas of the State.

The 8 proposed new positions in the Assistant Chief Engineer's Office are to complete the staffing of the office and to provide positions for program control and for clerical help. These positions were established in the current year and are shown as proposed new in 1962-63, 5 of the positions are for program control and were limited to one year by legislative action.

The Bay Area Branch has 29 proposed new positions for South Bay Aqueduct Operations, Ground Water Basin Protection Studies, and the Delta-Suisun Bay Pollution Study.

The Delta Branch has 4 proposed new positions to meet program requirements.

The San Joaquin Valley Branch has 2 proposed new positions for increased economic studies for planning and operations.

The principal increase in positions for the Southern District is for the design, right-of-way and construction program and the Ground Water Basin Protection Studies.

Twenty-five positions are abolished in the branches in 1962-63 due to workload readjustments.

STATE FACILITIES FINANCED BY LOANS FROM TREASURY FUNDS

DEPARTMENT OF FINANCE OFFICE BUILDINGS

(Loans From State Trust Funds)

The State Building Construction Act of 1955 provides that the State Public Works Board may issue revenue bonds or certificates to provide funds to acquire or construct state office buildings when authorized by a separate act or appropriation of the Legislature. The buildings so acquired or constructed are to be leased by state agencies at a rental rate that will retire the bonds or certificates and provide for the payment of interest. In addition the rental rates shall cover the costs of operation and maintenance of the public buildings authorized.

The State Public Works Board has entered into an agreement with the Board of Administration of the State Employees' Retirement System whereby that agency will purchase certificates to finance the construction of the 8 office buildings and the Los Angeles garage authorized by Chapter 1687, Statutes of 1955, as amended by Chapter 1647, Statutes of 1957, and the Budge Act of 1958.

During the 1960-61 fiscal year, office buildings in San Francisco, Oakland, Fresno, and Los Angeles were completed an occupied by state agencies. The Los Angeles garage was completed in December 1960. In 1961 construction began on th Sacramento and San Diego buildings. Sites have been acquire for buildings in San Bernardino, San Jose, and Stockton.

Anticipated completion dates are as follows:

San Diego	November 1, 1962
San Jose	January 1, 1964
Sacramento	January 1, 1964
Stockton	January 1, 1965
San Bernardino	August 1, 1967

	COMPLETED COST	ESTIMATED COST	TOTAL AUTHORIZED BUILDING PROGRAM
Office Buildings Authorized for Construction: [a]			
Fresno	$3,575,000	–	$3,575,000
Los Angeles	10,850,000	–	10,850,000
Los Angeles garage	2,057,000	–	2,057,000

HIGHWAY PATROL ACADEMY AND CIVIL DEFENSE HEADQUARTERS BUILDING, SACRAMENTO

(School Land Fund)

Funds were loaned for the construction of the Civil Defense Headquarters and the Highway Patrol Academy from the School Land Fund under the provisions of Chapter 1597, Statutes of 1951. Under a contract between the Governor, Director of Finance, and the Commissioner of the Californi Highway Patrol, the costs of these facilities are being repai with interest at 2½ percent per annum by the respective agencie in 240 equal monthly installments.

OFFICE BUILDING, SACRAMENTO

(Department of Agriculture Building Fund)

The Department of Agriculture Building was authorized by Chapter 11, Statutes of 1950 (First Extraordinary Session). Moneys were transferred from the Department of Agriculture Fund to the Department of Agriculture Building Fund on a loan basis to provide for construction of the building. Rentals are being paid to the Department of Agriculture Building Fun and returned to the Department of Agriculture Fund.

Construction of an addition to this building and the departmental greenhouse are nearing completion.

EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	PROPOSED 1962-63
Construct addition to Department of Agriculture Building [a]	$100,000	$549,500	$50,000
Construct Department of Agriculture greenhouse [a]	123,000	–	–

HIGHWAY PATROL OFFICE BUILDING, SACRAMENTO

(School Land Fund)

Pursuant to the authority contained in Chapter 11, Statutes of 1951, a loan was made available to the Department of the California Highway Patrol from the School Land Fund for the construction of a new office building in Sacramento.

The loan is being repaid in a series of 240 monthly payment together with interest at the rate of 2½ percent per annum o the unpaid balance. Provision for these payments is made in th support budget of the Department of California Highway Patrol

---

[a] Financed by loans from trust and other funds and not included in overall budget totals.

STATE FACILITIES FINANCED BY LOANS FROM TREASURY FUNDS—Continued

DEPARTMENT OF MOTOR VEHICLES OFFICE BUILDING, SACRAMENTO

(School Land Fund)

Pursuant to the authority contained in Chapter 12, Statutes of 1951, a loan was made available to the Department of Motor Vehicles from the School Land Fund for the construction of a new office building in Sacramento.

The loan is being repaid in a series of 240 monthly payments together with interest at the rate of 2½ percent per annum on the unpaid balance. Provision for these payments is made in the support budget of the Department of Motor Vehicles.

BUSINESS AND PROFESSIONS BUILDING ANNEX, SACRAMENTO

(Various Funds)

Constructed by advances from special funds and the General Fund in accordance with Sections 400 to 404 of the Business and Professions Code. For detail of repayment program see budget for Departmental Administration, Department of Professional and Vocational Standards.

OFFICE BUILDING, SACRAMENTO

(Veterans' Farm and Home Building Fund of 1943) [b]

This office building, constructed under the provisions of the Veterans Affairs Construction Fund Act of 1943, was completed in March 1957. Occupying agencies, including the Department of Veterans Affairs, will pay rent sufficient to repay the amount advanced by the Veterans' Farm and Home Building Fund of 1943, together with interest thereon.

An appropriation for acquisition and improvement of a parking lot was included in the Budget Act of 1956, subject to the provisions of the Veterans Affairs Construction Fund Act. The parking lot with a capacity of 153 automobiles was put into operation during the month of June 1958. Additional property was purchased to increase the capacity of the parking lot by approximately one-third.

EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	PROPOSED 1962-63
Acquisition of a site for a parking lot [a]	$29,286	–	–

OFFICE BUILDING, SACRAMENTO

(Unemployment Compensation Disability Fund)

Investment of money from the Disability Fund was authorized by Chapter 1603, Statutes of 1951, for the construction and equipment of a building or buildings and appurtenant facilities for the use of the Department of Employment as a central office in Sacramento. Expenditures will be repaid through rental payments by occupying agencies.

Investment of money from the Disability Fund was authorized by Chapter 1814, Statutes of 1955, for the acquisition and development of a parking lot adjacent to the new central office building. Expenditures will be repaid through charges to persons using the parking lot.

OFFICE BUILDING, LOS ANGELES

(Unemployment Compensation Disability Fund)

Investment of money from the Disability Fund was authorized by Chapter 16, Statutes of 1954 (First Extraordinary Session) for the acquisition of real property and the construction and equipment of a building or buildings and appurtenant facilities for the use of the Department of Employment as a branch office in Los Angeles. Expenditures will be repaid through rental payments by the occupying agency.

PARKING LOT, SACRAMENTO

(State Employees' Retirement Fund)

Investment of money from the State Retirement Fund was authorized by Chapter 760, Statutes of 1959, for the purchase of real property and the cost of improvements thereon. The Retirement Board proposes to purchase a block contiguous to the Sacramento State Building which is to be constructed under the State Building Construction Act of 1955. This block would be developed as a parking lot for lease to the Department of Finance. Employee parking fees would reimburse the fund for its investment with interest.

EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	PROPOSED 1962-63
Acquisition of a site for a parking lot [a]	–	$1,500,000	–

PARKING LOT, SAN DIEGO

(School Land Fund)

Chapter 1647, Statutes of 1957, authorized the construction of a state building in San Diego to be constructed under the provisions of the State Building Construction Act of 1955. The Director of Finance proposes to purchase land adjacent to the San Diego State Building now being constructed to provide needed state car, public, and state employee parking for the building. The cost of purchase of real property and the development to be repaid to the School Land Fund over 240 months with interest at the current rate.

EXPENDITURES	ACTUAL 1960-61	ESTIMATED 1961-62	PROPOSED 1962-63
Parking lot, San Diego—acquisition and development [a]	–	–	$950,000

---

[a] Financed by loans from trust and other funds and not included in overall budget totals.

[b] Previous to June 30, 1960, this program was financed from Veterans Affairs Construction Fund which was abolished by Chapter 1902, Statutes of 1959, effective June 30, 1960.

GENERAL ANALYSIS

Objectives

The purpose of the San Francisco Port Authority is to promote the facilities and administer the operations of the Port of San Francisco, including the State Belt Line Railroad.

Program and Performance

The authority, established under the provisions of Section 1700 of the Harbor and Navigation Code, consists of 5 commissioners appointed by the Governor with the consent of the Senate. Each commissioner serves for a 4-year term. One commissioner, elected by the other commissioners serves as president of the authority.

This authority provides pier services for ships, assigns berths, rents office and wharf space, manages the Foreign Trade Zone, constructs and maintains harbor facilities, operates a railroad, solicits cargo, and publicizes the harbor. Users of port facilities pay tolls, dockage, demurrage, and rental charges set by the authority. The operation of the port is entirely self-supporting.

The harbor is publicized through press releases, publications, and advertising. Port traffic representatives solicit cargo for the port in California and a full-time regional representative promotes harbor business in New York and on the East Coast.

There is an office representing the authority in London for Great Britain and continental Europe as well as Far East representation in Tokyo, Japan; Sydney, Australia; and Singapore, Malaya.

SUMMARY OF RECEIPTS AND EXPENDITURES

San Francisco Harbor Improvement Fund

TOLL BRIDGE CONSTRUCTION AND REVENUE FUNDS

FUND CONDITION	ACTUAL 1960-61	ESTIMATED 1961-62	ESTIMATED 1962-63

Toll bridge construction funds consist of proceeds from sale of revenue bonds, the issuance of which is authorized by the California Toll Bridge Authority; and, as in the case of the San Pedro-Terminal Island Bridge, such other funds as are provided by statute. At the present time all toll crossings are situated in the San Francisco Bay area except for the San Pedro-Terminal Island Bridge, for which bonds were sold on April 26, 1961.

San Francisco-Oakland Bay Bridge:

Although currently there are no outstanding bonds against the revenues on this structure, tolls are being continued to pay for the cost of alterations and improvements to the bridge authorized by Chapter 2316, Statutes of 1957, and the rehabilitation and improvement of the San Mateo-Hayward Bridge and the Dumbarton Bridge pursuant to Chapter 1784, Statutes of 1959.

In addition to the toll revenues on the San Francisco-Oakland Bay Bridge, the residue of bond proceeds, in separate funds designated as the San Francisco-Oakland Bay Bridge Construction Fund and Southern Crossing Engineering Fund, are being used respectively for improvements to the San Francisco-Oakland Bay Bridge and for studies of additional crossings.

Carquinez Strait Bridges:

The additional Carquinez Bridge, financed by toll revenue bonds issued pursuant to resolution of the Toll Bridge Authority, was opened to traffic on November 25, 1958. At the same time the original bridge was closed for improvement and reconstruction of the approaches, being reopened to traffic on April 29, 1959.

By supplemental resolution on April 23, 1959, the authority authorized the issuance of $34,000,000 of toll revenue bonds to finance the Benicia-Martinez Bridge. Upon sale of the bonds, the proceeds were deposited in the Carquinez Strait Bridges Construction Fund and construction contracts for the bridge proper were immediately let. It is estimated that the bridge will be opened to traffic in July 1962.

San Pedro-Terminal Island Bridge:

Chapter 74, Statutes of 1958, as amended by Chapter 1961, Statutes of 1959 (Sections 30680-30684 of Streets and Highways Code) authorized the construction of this bridge and provided for the financing thereof. Contracts for the structure have been let and work is now underway. It is estimated that the bridge will be opened to traffic in October 1963.

GENERAL ANALYSIS

Objectives

This program provides residential facilities for state college students, both single and married.

Program and Performance

State College Dormitory Revenue Fund:

In 1957 the Legislature approved an additional residence hall program to be financed partially by a loan from the Federal Housing and Home Finance Agency and the remainder from the State Construction Program Fund. All expenditures for construction were from appropriations from the State Construction Program Fund. During 1960-61, $14,173,000 principal amount of bonds, authorized under the State College Revenue Bond Act of 1947, were sold. The proceeds from the sale of these bonds were deposited in the State College Dormitory Construction Fund and $14,107,266 transferred to the State Construction Program Fund for reimbursement of construction advances.

The program provides capacity for 7,809 single students at the several state college campuses. Construction was completed on 15 units which began operation in September 1959. Construction of the remaining 21 units was completed and the units occupied in September 1960. All revenues accruing through the operation of the residence halls will be deposited in the State College Dormitory Revenue Fund. In 1961-62 an operating reserve was budgeted at 16 percent of current estimated expenditures. The trustees of the California state colleges have adjusted this operating reserve to 12.7 percent for 1961-62 and plan to keep the reserve at 12.5 percent for 1962-63.

Moneys in this fund are appropriated to pay the costs of operation and maintenance of the residence halls. After providing for current support expenditures, remaining sums, as required, shall be transferred to the State College Dormitory Interest and Redemption Fund for interest and principal payments on the outstanding bonds. Remaining balances in any of these funds after payment of all authorized charges shall remain available for expenses incidental to the program.

The 36 units will provide student housing capacity as follows:

College	Men	Women	Total
Chico State College	208	208	416
Fresno State College	209	418	627
Humboldt State College	202	202	404
Long Beach State College	209	209	418
Sacramento State College	204	408	612
San Diego State College	627	418	1,045
San Fernando Valley State College	–	207	207
San Francisco State College	404	404	808
San Jose State College	606	606	1,212
California State Polytechnic College:			
San Luis Obispo campus	808	404	1,212
Kellogg-Voorhis campus	636	212	848
Totals	4,113	3,696	7,809

Each dormitory consists of two 3-story wings with each wing containing 104 beds except at San Francisco where two 6-story wings with 202 beds per wing are provided.

College Auxiliary Enterprise Fund:

During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at Chico, Fresno, Humboldt, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State by Public Law 796 of the Eightieth Congress, and their operations were financed through the General Fund support appropriation of the individual colleges as an interim measure. This program at Fresno State College was phased out in 1959.

On August 1, 1949, Chapter 1485, Statutes of 1949, established the College Auxiliary Enterprise Fund, to which was transferred the excess of income over expenditures for prior operations. All rents, charges and fees are paid into this fund and are appropriated therefrom for maintenance, repairs, and operation of student housing facilities. Funds may also be expended for construction. These facilities provide housing for veterans or other students at established rates. The facilities operated by the College Auxiliary Enterprise Fund are listed below:

	Family Dwelling Units	Dormitory Units	
Chico State College	45	15	(30 individuals)
Humboldt State College	10	37	(37 individuals)
San Francisco State College	84	–	
San Jose State College	148	–	
Totals	287	52	

This budget reflects some changes in existing facilities due to the removal of some units due to age and condition and to make room for construction of permanent instructional facilities.

GENERAL ANALYSIS

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer insurance protection to employers at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees. The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

Expenditure estimates are predicated on the expectation of a continued increase in population growth and business activity. Changes in economic conditions may result in corresponding changes in the various items of expense.

GENERAL ANALYSIS

Objectives

This division assists eligible veterans in the acquisition of a farm or a home. It is a self-sustaining activity not supported by funds derived from taxation.

Program and Performance

Within limitations set forth by law, the department may purchase a farm or home and in turn enter into a contract with the veteran for the sale of the property to the veteran. The cost to the department cannot exceed $15,000 in the case of a home or $40,000 in the case of a farm. The contract with the veteran provides for monthly payments which include interest currently computed at 4 percent and is usually written for a term of 20 years. Seventeen district offices have been established throughout the State to process applications for assistance under this program.

Property purchases by the department for resale to veterans are currently at a rate of approximately 1,350 per month. Past year purchases were at an average rate of 1,372 per month.

From 1922 to June 30, 1961, 178,368 homes and 2,221 farms were acquired for resale to veterans at contract values totaling $1,714,175,801. Included in the total are 129,406 properties financed for World War II veterans and 29,438 for veterans of the Korean emergency. To June 30, 1961, 57,906 contracts have been paid in full.

The Home Protection Plan of life insurance was started on December 1, 1938. Each veteran who is insurable is covered for the exact amount of the unpaid balance of his contract at a cost of 45 cents per month per $1,000 insurance. Effective February 1, 1960, these additional insurance benefits were added: If insured under the plan, the applicant will be eligible for additional insurance which provides for a cash payment to the spouse or other designated beneficiary of an amount equal to 20 percent of the unpaid balance of the purchase contract at date of death. If death occurs by accidental means before age 70, an additional cash payment equal to 120 percent of the contract balance, but not to exceed $18,000, is made to the beneficiary. Coverage for these additional benefits is automatically extended to each contract purchaser who is insured under the plan, unless the veteran notifies the department in writing that he does not desire this coverage. The premium was originally set at $1 per month per $1,000, but favorable experience permitted a gradual reduction to the present cost. To June 30, 1961, 3,006 insured contract holders have died and $13,657,997 paid in full settlement of balances due. This insurance provided family protection which generally would not otherwise be carried. In addition to life, insurance against fire and other hazards is required, the coverage being under blanket policy. The rate is 40 cents on $100 deductible, 62 cents full coverage, and 80 cents on farm out-buildings, for a term of 5 years.

The 1962-63 Budget is based on the assumption that funds for farm and home purchases will continue at the current level of availability. The increased expenditures for bond interest reflect the cumulative effect of the growth of the loan program. This expenditure is more than offset by revenues received.

A total of 11 positions are abolished in the 1961-62 fiscal year due to a reduction in workload requirements.

RETIREMENT FUNDS

JUDGES' RETIREMENT FUND

Receives contributions from the State in the amount of 2½ percent of the salaries for the established judgeships of the justices of the Supreme Court and of the district courts of appeal, and judges of the superior and municipal courts. A like amount is deducted from the salaries of the justices and judges and deposited in the fund. It is anticipated that there will be 609 members contributing to this retirement fund effective July 1, 1962.

TEACHERS' RETIREMENT FUND

The State Teachers' Retirement System is composed of approximately 257,300 active accounts. Approximately 26,398 members will receive retirement benefits during 1962-63. The present system became operative July 1, 1944.

Three major funds constitute the State Teachers' Retirement Fund. They are the Teachers' Permanent Fund, the Retirement Annuity Fund, and the Annuity Deposit Fund. Chapter 1583, Statutes of 1957, authorized the 3 funds to be combined for administrative purposes only. All other aspects of each fund are carried on as before.

The Teachers' Permanent Fund receives its revenue from members' contributions, contributions from the school district, interest from invested reserves, and yearly appropriations by the State from the General Fund. Retirement benefits from the fund are currently $600 per year to the person who is credited with 30 or more years of service, and who retires at age 60. A pro rata amount of that amount is paid for less than 30 years of service, and all benefits from this fund are usually discounted or improved actuarially if the member retires at an age less than 60 years or over.

The Retirement Annuity Fund receives its revenue from the members' contributions, interest from invested reserves, and yearly appropriations by the State from the General Fund. Under Chapter 1395, Statutes of 1955, school districts and employing state agencies are required to pay contributions equal to 3 percent of the certificated payroll to this fund. The retirement benefits from this fund are computed on the basis of the member's sex, total service, age at retirement, and the average salary earnable in the 3 highest consecutive years of earnings. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System benefits to local members on the basis of service credited by the local systems, and the amount of local fund allowances.

The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935, and July 1, 1944, together with the interest earned thereon. Chapter 1395, Statutes of 1956, has reopened this fund for additional member contributions. Members who have contributed to this fund receive an annuity at the time of their retirement, but the benefit is based solely on the value of the members' accumulated contributions.

STATE EMPLOYEES' RETIREMENT FUND

Receives contributions from the State, contracting public agencies, and employee members to be used for payments of death and retirement benefits in accordance with provisions of law and contracts with public agencies. Included in 1961-62 are funds collected from state employees electing to integrate social security with the state employees retirement system program. The $10 per electee is available to meet integration costs during 1961-62 and 1962-63.

GENERAL ANALYSIS

The Department of Employment administers the state employment service and unemployment insurance and disability insurance systems. The department also performs certain functions as an agent of the Federal Government in connection with the administration of 2 permanent programs and 1 temporary program; the permanent programs are the Federal Unemployment Compensation Program under Title XV of the Social Security Act which provides unemployment insurance benefits for unemployed federal workers, and the Servicemen's Unemployment Compensation Act of 1958 which provides unemployment insurance benefits for unemployed ex-servicemen. The temporary program is the Temporary Extended Unemployment Compensation Act of 1961 which provides for payment of benefits to unemployed persons for extended periods when their regular benefit entitlements are exhausted. This program terminates as of June 30, 1962.

The employment service program provides a job placement and counseling service for employers and workers, including a farm placement service. The program includes special services to veterans, older workers, youth, and physically handicapped persons, and provides for the collection and dissemination of labor market information.

The unemployment insurance program provides for payment of benefits to workers who are unemployed through no fault of their own; but are able to, available for, and actively seeking work, and meet the eligibility requirements of the Unemployment Insurance Code. These benefit payments are made from the Unemployment Trust Fund which is financed through a payroll tax on employers who are subject to the provisions of the California Unemployment Insurance Code. In the 1959 Session of the Legislature, part III was added to the Unemployment Insurance Code to provide for extended duration benefits during periods when unemployment reaches a 6 percent level. These extended duration benefits are financed by an additional tax on all employers. Estimates of extended duration benefits and additional tax amounts are included as expenditure and revenue items for the appropriate fiscal years.

The Unemployment Insurance Code provides for payment of disability and hospital benefits in 2 ways: either by the State from the Unemployment Compensation Disability Fund financed by a 1 percent tax on wages paid by workers in employment subject to provisions of the California Unemployment Insurance Code; or by voluntary plans as provided by the code. In the 1961 Session of the Legislature, Chapter 2155 was enacted to provide for extension of disability and hospital benefits coverage to agricultural employees effective October 1, 1961. This will provide coverage for the first time for an estimated 385,000 agricultural employees and will require wage reporting from approximately 90,000 agricultural employers. The legislation will increase this agency's administrative costs in the 1961-62 and 1962-63 fiscal years. Another statutory enactment, Chapter 2154, effects other significant changes in the disability insurance program, including an increase in the maximum weekly disability benefit amount, increases in the taxable wage base for employee contributions and re-establishment of the adverse selection provisions related to voluntary plans.

The budgetary requirements of the major programs are based on workload—unit time calculations determined from past experience as modified by analysis. The workload data for the Disability Insurance and Unemployment Insurance programs which were used as a bases for this request are shown in the table below:

Disability Insurance Administration Workload Data:			
(a) State plan claims	387,191	452,780	610,000
(b) Voluntary plan claims	163,834	102,000	34,000
(c) Voluntary plans approval and review process	42,592	44.620	13,990
(d) Appeals handled	3,871	4,154	3,690
(e) Wage earner refunds	240,144	275,000	297,000
Unit Time Data—Hours Per Unit:

(e) Subject employer contribution reports	1,326,556	1,371,200	1,372,600

---

[a] Expenditures from Department of Employment Contingent Fund included in overall budget totals.

GENERAL ANALYSIS—Continued

1960-61 Fiscal Year

During the 1960-61 fiscal year the number of state plan disability claims filed increased 11 percent over the 1959-60 fiscal year and 24 percent over the previous 1958-59 fiscal year. In the 1960-61 fiscal year improved performance permitted a decrease in cost per unit of work.

Unemployment insurance benefit workloads increased sharply over the low level years of 1958-59 and 1959-60. This increase started with the beginning of the 1960-61 fiscal year and continued throughout.

The employment service continued to expand its services to employers and work applicant groups. This included increased job placement and job counseling service to the handicapped, veterans, youth and older worker, parolees, and other groups requiring special assistance.

1961-62 Fiscal Year

Disability Insurance Administration budgetary requirements are established on a performance basis with the total staff determined from workload—unit time calculations. For the 1961-62 fiscal year it is anticipated that the principal workload item of state plan disability claims will be 17 percent higher than actual experience for the 1960-61 fiscal year. In addition there will be additional workloads in connection with the enactment of Chapter 2155, Statutes of 1961, which provides for extension of disability and hospital benefits coverage to agricultural employees, effective October 1, 1961. As the first eligibility for benefits for the agricultural employees will not be until May 1962, the principal initial costs are for registration of employers, accounting of amounts paid by employers, advisory services to employers, and establishment of wage records for the quarterly periods of October-December 1961 and January-March 1962. These increases in workload will require additional expenditures for Disability Insurance Administration for the 1961-62 and 1962-63 fiscal years as the unit time requirements are approximately the same as for the 1960-61 fiscal year.

The 1961-62 fiscal year unemployment insurance budget is based on a continuance of the 1960-61 fiscal year level of unemployment. It is predicted that employment will increase during the 1961-62 fiscal year as it did during the 1960-61 fiscal year. The unemployment level will remain high, however, as the labor force will continue to increase almost as rapidly as new employment opportunities.

The increase in the number of positions included in the estimate of requirements for Unemployment Insurance—Employment Service administration for the 1961-62 fiscal year over the 1960-61 fiscal year is attributable to the following factors:

1. In accordance with directives by the President and subsequent appropriation action by the United States Congress, this department is participating in a nationwide expansion of employment service operations. This step to establish a strong and effective employment service is needed to provide better service for unemployment insurance claimants and other job applicants registered with this State's employment service. This strengthening involves expanded counseling and placement services for workers or job seekers (a) in depressed areas; (b) in rural areas of chronic underemployment; (c) displaced by automation and technological change in factories and on farms; (d) in upper age brackets; and (e) recently graduated from college and high school. This added emphasis on employment service has been coupled with a reorganization now in progress of the local employment offices in major metropolitan areas. Of the 401 additional positions provided, 327 are for improved employment service and 74 are to staff the reorganization of field offices to provide separate offices for employment service and unemployment insurance functions.
2. An increase in staff is included to meet the requirements for administration of the Federal Temporary Unemployment Extended Compensation Act of 1961. This program provides for payment of benefits to unemployed persons for extended periods when their regular benefit entitlements are exhausted. This program terminates as of June 30, 1962.

1962-63 Fiscal Year

For the 1962-63 fiscal year, it is anticipated that the principal workload item of State Plan disability claims will increase 35 percent over the number of claims that were received in the 1961-62 fiscal year. Of this 35 percent increase, 14 percent relates to the statutory change which extends disability and hospital benefits coverage to agricultural employees effective October 1, 1961, with the first eligibility for benefits for new employees May 1962. The new program will be fully operative in the 1962-63 fiscal year. The staffing estimates for the Disability Insurance program are based upon this increased estimated workload multiplied by unit time experience for the 1960-61 fiscal year.

The 1962-63 fiscal year Unemployment Insurance budget is based on the anticipation that, unless there are basic changes in the California economy, economic conditions in the 1962-63 fiscal year should closely parallel those of 1961-62. Employment will rise, but unemployment will also remain at a high level. Although the estimated unemployment insurance workload for the 1962-63 fiscal year shows a slight increase over the 1961-62 fiscal year because of the re-establishment of the State program of payment of entended duration benefits, the total personnel estimated for Unemployment Insurance Administration shows a decrease of approximately 200 positions because of the termination of the Temporary Extended Unemployment Compensation program on June 30, 1962. The estimate for the 1962-63 fiscal year provides for a continuation of the expanded employment service program.

Numerous improvements in operating procedures have been effected in the 1960-61 and 1961-62 fiscal years as a result of the employee work improvement and management appraisal programs. These savings are reflected in the estimated requirements for the 1962-63 fiscal year in both the Unemployment Insurance-Employment Service and Disability Insurance programs.

The amount included for support from the Department of Employment Contingent Fund for the 1962-63 fiscal year includes the following principal items:

1. A recurring amount for part of cost of operation of the community employment program. This program involves work with local communities in the promotion and development of employment programs and with individual employers in the development of new industrial projects. The other part of the amount required for the support of this program is paid from federal funds.
2. An amount of $173,390 for costs to the Unemployment Insurance-Employment Service program for all of the additions to the administrative pro rata charges that were added by Chapter 1844, Statutes of 1959, except charges for the Central Records Depository of the Secretary of State. This amount consists of $159,652 for the cost of the Legislature and $13,738 for the indirect imputed costs of the Central Fiscal Agencies for rent, Attorney General services, etc. In letters dated October 23, 1959 and August 1, 1961, respectively, the Federal Bureau of Employment Security advised this agency that granted funds cannot be expended for the cost of the Legislature or the indirect imputed charges of the Central Fiscal Agencies.

The amount of $22,700 requested from funds made available to this agency under Section 903 of the Social Security Act, as amended (Reed Act), is to provide for costs of the Department of Finance audits of the Unemployment Insurance-Employment Service program. In a previous determination the Federal Bureau of Employment Security ruled that such costs could not be paid from funds granted to this agency for administration of the Employment Security program. In view of this determination the Legislature provided in the budget acts of 1959, 1960, and 1961 for payment of the costs for the 1959-60, 1960-61, and 1961-62 fiscal years from funds made available to this agency under Section 903 of the Social Security Act, as amended (Reed Act). This request provides for continuation of the payment of these costs from this source of funds for the 1962-63 fiscal year.

DEPARTMENT OF EMPLOYMENT—Continued

OFFICE OF THE DIRECTOR AND DEPUTY DIRECTOR

The Department of Employment is administered by the Director of Employment appointed by the Governor subject to approval of the Senate. He is responsible for all phases of the administration of the California Unemployment Insurance Code except for certain quasi-judicial functions which are the responsibilities of the Appeals Board. Two deputy directors are appointed by the Governor. One assists the director in the administration of the code and acts for the director in his absence and the other is responsible for the farm placement program.

RESEARCH AND STATISTICS SECTION

The Research and Statistics Sections compiles the departmental statistical reports; carries out analytical research in connection with the employment security and disability insurance programs administered by the department; is responsible for the farm reporting program, makes estimates of the workload of the department for use in preparing departmental budgets, and provides statistical and research services to the operating divisions of the departments.

A decrease of 2 positions is anticipated in 1962-63 due to completion of initial coding of agricultural employers who will become subject to the Disability Insurance provisions of the unemployment insurance code effective October 1, 1961. One position will be eliminated through termination of the Temporary Extended Unemployment Compensation program on June 30, 1962.

---

[a] Includes elimination of 1 executive secretary position in 1961-62 in accordance with the provisions of Section 20 of the Budget Act of 1961.

DIVISION OF APPEALS

Objectives

The 3 members of the California Unemployment Insurance Appeals Board are appointed by the Governor for terms of 4 years and constitute the final administrative body, vested by law with the responsibility of reviewing and deciding appealed matters relating to disputed unemployment insurance and disability benefit determinations, and employer tax liability. The Appeals Board also hears appeals from rules and regulations established by the director.

Program and Performance

The Appeals Board formulates its own administrative policy and through its secretary and chief referee administers the affairs of the entire division. Referee offices have been established in San Francisco, Sacramento, Los Angeles, Van Nuys, Fresno, Oakland, San Jose, San Bernardino, San Diego, and Long Beach. The referees staffing these offices have the primary responsibility of hearing and deciding appeals from determinations relating to unemployment insurance benefits, disability benefits, overpayments, and disputed employer tax liability matters.

An increase of 1 position is anticipated in the Appeals Board due to the estimated increase in the higher authority benefit appeals workload. A decrease of 8 positions is anticipated in the Referee Section due to the estimated decrease in the lower authority benefit appeals workload and the termination of the Temporary Extended Unemployment Compensation program.

DEPARTMENT OF EMPLOYMENT—Continued

DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS

Objectives

The responsibility of this division is the administration and operation of the Unemployment Insurance and Employment Service Programs.

Program and Performance

The program of the division is carried out at 3 levels, the central office, the area offices, and the local and farm labor field offices.

At the central office level there are the office of the Chief of the Division; the Organization and Management Section; Employment Service, Benefit Payments, and Farm Placement Technical Sections; the Interstate Unit; and the Emergency Planning Unit.

The Organization and Management Section makes special studies to determine conformity of local offices with prescribed policies, standards, and methods of operation, and is responsible for planning of space and personnel needs and determination of the need for and development of procedures and standards in the general field of organization and management of the division. The technical sections provide program leadership and interpret and recommend policy. The Interstate Unit processes Interstate Unemployment Insurance claims for payment. The Emergency Planning Unit plans with sections and divisions involved for emergency operations of the department in case of natural or manmade disaster. This unit was established March 1, 1960. It is financed through grants allocated through the United States Department of Labor by the Office of Civil and Defense Mobilization for use of all state employment security agencies in making effective the National Manpower plan.

The Occupational Analysis Field Center is located in Los Angeles but is under the direct supervision of central office. It is 1 of 5 such centers in the United States and serves as the point of analysis and processing of job analysis data gained by state employment security agencies in 11 western states. Th San Diego Skill Survey Unit was established and made a specia study of about 9 months' duration from April 1 to Decembe 31, 1960.

The coastal, interior, southern, and Los Angeles metropolita area offices direct the operation of local employment servic and unemployment insurance offices and farm placement fiel offices. These area offices also assist in determining prograr needs and formulating plans to meet these needs.

Local offices provide direct services to the public in place ment, testing and counseling, labor market information, an payment of unemployment insurance benefits. They also provid the farm labor service where there are no separate farm labo offices. Separate farm labor offices in many localities provid direct service to the public in the placement of farmworker and preparation of farm labor market reports.

A decrease of 1 position is anticipated in the Employmen Service Technical Section due to completion of a special pro gram of bringing training material up to date.

A decrease of 5 positions is anticipated in the Benefit Pay ment Technical Section due to completion of a special prograr of bringing training material up to date, completion of a benefi determination guide, and the termination of the Temporar Extended Unemployment Compensation program.

A decrease of 16 positions is anticipated in Interstate Uni due to termination of Temporary Extended Unemployment Com pensation program.

A decrease of 1 position is anticipated in the Farm Placemen Technical Section due to completion of a special program c bringing training material up to date.

A decrease of 137 positions in local offices because of th termination of the Temporary Extended Unemployment Com pensation program.

DIVISION OF ACCOUNTS AND TAX COLLECTIONS

Objectives

The Division of Accounts and Tax Collections is responsible for the proper reporting of wages and payment of contributions under the California Unemployment Insurance Code.

Program and Performance

The deputy director is the chief of this division. The division consists of an Auditing Section staff in central office and field offices under the direction of the Chief Tax Administrator.

The Auditing Section carries out the uniform statewide tax auditing compliance enforcement and collection program of the department directly with the taxpayers concerned. The section determines whether employing units are required to register and report, whether services are covered under the law, and whether wages are taxable. The section also determines and verifies reported and unreported tax liability, collects delinquent amounts due, provides related advisory services, and assures compliance with relevant provisions of the California Unemployment Insurance Code.

Provision has been made during 1961-62 for an increase of 7 and 49 positions in the Central Office and Field Auditing Section, respectively, at a cost of $225,000 to handle the increased auditing workload resulting from the extension of disability and hospital benefits to agricultural workers under the provisions of Chapter 2155, Statutes of 1961. The cost of these positions in 1962-63 is approximately $312,000.

Decreases of 3 and 8 positions are anticipated during 1962-63 in the Central and Field Offices Auditing Section respectively due to the elimination by 1961 statute of the separate assessment and collection of the extended duration tax.

---

[a] Includes elimination of 137 positions in 1962-63 due to a termination of the Temporary Extended Unemployment Compensation program.

[b] Includes elimination of 1 position in 1962-63 due to termination of the Temporary Extended Unemployment Compensation program.

OFFICE OF ASSISTANT DIRECTOR-COMPTROLLER

Objectives

The assistant director-comptroller advises the director and deputy director on fiscal and administrative matters and directs the Standards and Methods Section, Accounting Section, Data Processing Section, Administrative Services Group, and the Internal Audit Unit.

Program and Performance

The Standards and Methods Section is responsible for a continuous review of the department's organization and the co-ordination of programs, policies, and procedures. It evaluates present and future efficiency and effectiveness of existing policies, methods, and organizations. It keeps informed on all problems which require planning, seeks to develop adequate solutions, and follows up results of planning activities. It also maintains the central archives and policy files of the department.

The Accounting Section processes employer status records and contribution and earnings reports; receives and deposits remittances; maintains employer reporting and accounting controls, and reserve accounts records; reconciles the bank accounts of the various benefit programs; maintains employer and wage earner report files; recomputes insurance awards; adjusts insurance account balances; maintains fraud and overpayment records; and maintains accounts and processes documents relating to unemployment insurance and disability insurance overpayments.

The Data Processing Section using electronic data equipment establishes and maintains claim and wage record files; records and computes benefit awards; records employee and employer contributions; prepares related statistical reports; and assists in relevant fiscal operations.

Administrative Service activities are carried on at 2 levels in Central Office and in the Area Business Management Unit.

Activities included are the Training Section which plans an directs the departmental training program; the Personnel Section which performs the personnel management activities; th Fiscal Section that handles budgetary and fiscal affairs and provides services such as typing, transcription, duplicating, an mail control; the Property Section which co-ordinates the rea property acquisition work of the department and performs business management functions for the Interior Area. The Are Business Management Units in Los Angeles and San Francisc perform field work in the fiscal, personnel, property, and othe administrative services functions and maintain rosters of fiel office employees. The Internal Audit Unit reviews, analyzes and reports on financial operations and related records in fiel offices and central office.

Provision has been made during 1961-62 for increases of 5 and 25 positions in the Accounting and Data Processing sections, respectively, to handle the increased registration and accounting workloads resulting from the extension of disabilit and hospital benefits to agricultural workers under the provisions of Chapter 2155, Statutes of 1961. The cost of thes positions in 1962-63 is approximately $377,000.

A decrease of 31 positions is anticipated during 1962-63 in th Accounting Section due to termination of the Temporary Extended Unemployment Compensation program and the elimination by 1961 statute of the separate assessment and collection o the extended duration tax.

A decrease of 1 position is anticipated in the Division o Administrative Services, General Administration due to th lapsing of a temporary training officer position.

A decrease of 2 positions is anticipated in the Fiscal Sectio Office Services due to the termination of the Temporary Extended Unemployment Compensation program.

[a] Includes elimination of 1 position temporarily approved in 1961-62 for updating training programs.

[b] Includes elimination of 2 positions in 1962-63 due to termination of the Temporary Extended Unemployment Compensation program.

[c] Includes 1 position temporarily approved to June 30, 1962, to reflect a temporary reorganization.

DEPARTMENT OF EMPLOYMENT—Continued

DIVISION OF DISABILITY AND HOSPITAL BENEFITS

Objectives

The Division of Disability and Hospital Benefits is responsible for the administration of the disability insurance program.

Program and Performance

The Central Office operation develops plans, standards and procedures, and evaluates all disability insurance claim operations.

The Claim Control Section provides claims service for the disability district offices; processes voluntary plan claim reports; supervises all voluntary plan activities for conformity with requirements of the California Unemployment Insurance Code; maintains voluntary plan files. A decrease of 10 is anticipated due to decreased workload subsequent adoption of administrative regulations governing the adverse selection ratio pursuant to Chapter 2154, Statutes 1961.

The 19 disability district offices, within their assigned geographical districts, evaluate first claims under state coverage for disability insurance to determine if they meet minimum standards; determine eligibility of claimants for disability insurance; prepare and issue disability insurance payments to eligible claimants; maintain all claim records for disability insurance claimants; conduct a field visit program which includes unscheduled visits to residence of claimants and visits to employers to review installation of voluntary plans for conformity with the California Unemployment Insurance Code; process and answer all correspondence with employers, claimants, doctors, institutions, and other state or governmental agencies.

The medical director formulates medical policies, programs and standards for the disability insurance program of the department. Offices are maintained in Sacramento, Los Angeles and San Francisco. He also advises the personnel office on medical problems concerning employees of the department.

During 1961-62, 75 positions have been included as a result of increased workload due to the adoption of adverse seelction regulations under the provisions of Chapter 2154, Statutes of 1961. The cost of these positions during 1962-63 is approximately $400,000.

An increase during 1962-63 of 176 positions is anticipated in the Disability Insurance District Offices. These positions are needed to handle the increased workload for: the extension of coverage to agricultural workers which will require 81.5 positions; the result of regulations effective January 1, 1962, affecting adverse selection which will require 47 positions; and increases in the other existing basic programs which will require 47.5 positions.

[d] Excludes Los Angeles County Fair.

[e] Excludes Los Angeles County Fair, Cloverdale Citrus Fair, and National Orange Show.

Department of Finance—Fairs and Expositions Division

DISTRICT AND COUNTY AGRICULTURAL FAIRS

GENERAL ANALYSIS

The State of California leads all others in the total amount of financial support given its 78 fairs and expositions which are operated by state agencies or by counties and nonprofit associations receiving moneys from the Fair and Exposition Fund. This fund is made up of revenues received from licensing of pari-mutuel wagering on horse racing and is distributed by fixed legislative appropriation and on the basis of need.

District agricultural associations are state agencies, created by legislative action, and established for the purpose of holding fairs, expositions and exhibitions of all the industries and industrial enterprises, resources, and products in the State with the purpose of improving, exploiting, encouraging and stimulating such production. Each association is administered by a board of 9 directors appointed by the Governor.

The California State Fair and Exposition is a state institution within the Department of Finance in Sacramento, as is the Sixth District Agricultural Association which maintains a permanent exhibit in Los Angeles. Fifty other district agricultural associations conduct district fairs; 24 counties conduct county fairs and 2 nonprofit corporations conduct citrus fruit fairs—the National Orange Show at San Bernardino and the Cloverdale Citrus Fair at Cloverdale. All the agencies conducting those fairs are required to submit annual budgets to the Department of Finance for approval with the exception of the 2 citrus fruit fairs and the Los Angeles County Fair.

The Department of Finance, through its Fairs and Expositions Division, supervises the operations of 73 of the 74 district and county fairs in California which receive financial assistance from the State. The Los Angeles County Fair and the 2 citrus fruit fairs do not come within the jurisdiction of the division.

All-year use of fairgrounds facilities has increased greatly over the past few years as buildings and grounds have been steadily improved. Interim uses include community gatherings, recreational activities, conventions, livestock sales, 4-H and Future Farmers meetings, sports events, school sessions, farm labor camps and relief headquarters in times of disaster.

A 5-year Capital Outlay program for all fairs has been formulated for the period 1961-62 to 1965-66 inclusive.

Full-time managers are employed by both district and county fairs. Other permanent employees of district agricultural associations have civil service status.

In an effort to improve the fair program the Fairs and Expositions Division co-operates in the conduct of schools of instruction for fair managers and directors; sponsors an annual conference for training of judges who officiate at fairs; holds annual meetings with Future Farmers and 4-H officials and with representatives of breed associations and exhibitors' groups to revise rules and regulations in the master premium list which details amounts that can be paid for the many classes and types of exhibits. These functions and activities are in addition to the fiscal and technical supervision by the Department of Finance over these 73 fairs.

The law does not restrict the area to be served by a district, county, or citrus fruit fair. Some of the fairs attract and encourage exhibitors from all over the State, while the exhibitors at other fairs are limited to the district or county in which the fair is conducted or to such district or county and contiguous areas.

The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

District Agricultural Associations

Revenues received by the Sixth District Agricultural Association, Los Angeles, are deposited in a special fund in the State Treasury and this association operates out of this special fund under appropriations by the Legislature. This district does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The 1-A District Agricultural Association, San Francisco, receives an annual appropriation of $250,000 and the 48th District Agricultural Association, Los Angeles, receives an annual appropriation of $125,000 under the provisions of Section 19622 of the Business and Professions Code. Neither of these associations receives an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 48 district agricultural associations receive annual allocations under Section 92 of the Agricultural Code on the basis of premiums paid at their respective fairs.

County Agricultural Fairs

The majority of the county fairs are conducted by nonprofit associations acting as agents of the respective boards of supervisors under the provisions of Government Code Section 25905, and receive allocations under the provisions of Section 92 of the Agricultural Code. In a few cases fairs are conducted directly by the county.

The Los Angeles County Fair is conducted under the provisions of Section 25906 of the Government Code. The County of Los Angeles receives an annual appropriation of $250,000 for support of the fair under the provisions of Section 19622 of the Business and Professions Code. The county does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 23 counties which receive funds for the encouragement of agricultural fairs receive allocations under the provisions of Section 92 of the Agricultural Code.

Citrus Fruit Fairs

Citrus fruit fairs receive an allocation under the provisions of Section 19626 of the Business and Professions Code.

The National Orange Show, a nonprofit corporation, receives an annual allocation of $150,000 from the 5 percent of the first balance of the Fair and Exposition Fund which is appropriated for the encouragement of citrus fairs under the provisions of Section 19626 of the Business and Professions Code.

The Cloverdale Citrus Fair, a nonprofit corporation, receives an annual allocation of $30,000 from that portion of the 5 percent of the first balance of the Fair and Exposition Fund which exceeds the amount which may be allocated to the National Orange Show under the provisions of Section 19626 of the Business and Professions Code.

Allocation of State Funds

Sections 19622, 19626, 19627, and 19630 of the Business and Professions Code provide that part of the revenue received from pari-mutuel wagering on horse racing shall be used for the support and encouragement of and capital outlay at district and county agricultural fairs and citrus fruit fairs. A statement showing the distribution of the Fair and Exposition Fund appears in the Capital Outlay Section of the budget on page 873.

Section 19622 makes annual appropriations to district and county agricultural fairs as follows:

Support of the Los Angeles County Fair	$250,000
Support of 1-A District Agricultural Association	250,000
Support of 48th District Agricultural Association	125,000

Section 19626 provides that 5 percent, but not more than $180,000 of the balance remaining after deducting certain appropriations shall, subject to statutory limitations, be paid to citrus fruit fairs. Section 19627 provides that 40 percent, but not more than $4,680,000, of the first balance shall, subject to statutory limitations, be apportioned for encouragement of county and district agricultural fairs under the provisions of Section 92 of the Agricultural Code.

Section 19630 of the Business and Professions Code appropriates $2,250,000 annually from the remaining balance of the Fair and Exposition Fund for capital outlay purposes at county, district, and citrus fruit fairs. These funds are allocated by the Director of Finance upon approval of the State Public Works Board. The State Fair, the 1-A, Sixth and 48th District Agricultural Associations and the Los Angeles County Fair are not eligible to receive allocations from this appropriation.

The funds allocated for the encouragement of district and county agricultural fairs under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are apportioned on the basis of premiums paid. The maximum amount which may be apportioned to any one fair during any fiscal year is limited to the amount required on the basis of need as determined by the Department of Finance, but not to exceed $65,000. Funds apportioned under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are distributed to the fairs monthly from current revenue paid into the Fair and Exposition Fund.

The fairs which expect to receive allocations under the provisions of Section 92 of the Agricultural Code submit their proposed premium lists for review by the Fairs and Expositions Division before the premium lists are printed. The proposed premium lists are reviewed to determine whether they comply with the master premium list and to determine the suitability of the proposed offerings for the individual fair.

Department of Finance—Fairs and Expositions Division

1st DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the California Spring Garden and Home Show at Oakland)

GENERAL ANALYSIS

Present activities of this association date from 1937. Annual flower shows are conducted in the Oakland Civic Auditorium and adjacent grounds. The 1961 show was held April 22nd to April 30th. The 1962 show is to be held April 28th to May 6th.

1-A DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Grand National Livestock Exposition and Grand National Junior Livestock Exposition at San Francisco)

GENERAL ANALYSIS

The 1-A District Agricultural Association was organized in 1931, and conducts 2 livestock shows each year at the Cow Palace, located on the boundary of San Francisco and San Mateo Counties. The Grand National Livestock Exposition featuring livestock, a horse show and a rodeo, is conducted in the fall and the Grand National Junior Livestock Exposition for junior exhibitors is conducted in the spring. The 1961 Grand National Livestock Exposition was conducted from October 27th to November 5th. The 1962 dates are October 26th to November 4th. The 1961 Grand National Junior Livestock Exposition was conducted March 25th to 29th. The 1962 dates are April 14th to 18th. The Cow Palace is used and is well suited for larger interim event rentals.

Department of Finance—Fairs and Expositions Division

2nd DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the San Joaquin County Fair at Stockton)

GENERAL ANALYSIS

The association was formed in 1922 and has sponsored the San Joaquin County Fair since 1936. Prior to that time, the history of the fair is traceable back to 1860. The fairgrounds site consists of 189 acres located in the City of Stockton. The County of San Joaquin gift-deeded approximately 70 acres of this to the State and an extensive grounds improvement and construction program is nearly completed. Racing with pari-mutuel wagering has been a continuing feature of the fair. The 1961 fair was conducted from August 17th to August 26th. Thirteen thousand seven hundred seventy-six exhibits entered by 1,793 exhibitors were judged at the fair. The 1962 fair dates are August 16th to August 25th.

4th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Fourth District Fair at Petaluma)

GENERAL ANALYSIS

Current activities of the district date from 1936. Annual fairs are conducted at the association's fairgrounds leased from the City of Petaluma under a lease expiring in 1972, at an annual rental of $1. The 1961 fair was conducted from August 10th to August 13th, exhibits being confined to junior departments.

Three thousand nine hundred ninety exhibits entered by 1,009 4-H Club and Future Farmers of America exhibitors were judged at the fair. The fair dates for 1962 are July 12th to July 15th.

22nd DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Southern California Exposition at Del Mar)

GENERAL ANALYSIS

The present activities of the 22nd District Agricultural Association date from 1933. Annual shows are conducted on the association's fairgrounds located at Del Mar consisting of general livestock and other exhibits and a national horse show. In 1936 an agreement was entered into with the Del Mar Turf Club granting a franchise for the purpose of conducting racing meets on association grounds. The rental is based on a percentage of parimutuel wagering during the race meets. In 1954 a subfranchise agreement was entered into between the Del Mar Turf Club and Operating Company, Incorporated, for the conducting of race meetings.

The 1961 fair was conducted from June 30th to July 9th. Thirteen thousand four hundred thirty-three exhibits entered by 2,833 exhibitors were judged at the fair.

(Conducting the Tehama County Fair at Red Bluff)

FUND CONDITION	ACTUAL 1960 CALENDAR YEAR	ESTIMATED 1961 CALENDAR YEAR	PROPOSED 1962 CALENDAR YEAR

GENERAL ANALYSIS

The present activities of the association date from 1936. Annual fairs are conducted on the association's fairgrounds, located just outside the City of Red Bluff, leased from the County of Tehama at a rental of $10 per year. In addition, the association owns 8 acres adjacent to the leased property. The lease expires in 1998. The 1961 fair was held August 3rd to August 5th and consisted of general livestock and other exhibits. Six thousand ninety-two exhibits entered by 1,046 exhibitors were judged at the fair. The 1962 fair dates are August 2nd to August 4th.

33rd DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the San Benito County Fair at Hollister)

GENERAL ANALYSIS

Present activities of the association date from 1937. Annual fairs are conducted on the association's grounds known as Bolado Park located approximately 8 miles from the City of Hollister. San Benito County Saddle Horse Show and Fair is also conducted on these grounds. The 1961 fair was held from October 6th to October 8th and consisted of general livestock and other exhibits. The rather large nonfair revenues and expenditures as shown below are due to the fact that the association operates, on a year-round basis, a swimming pool, picnic area, barbecue area, and other facilities. Three thousand six hundred seventy-one exhibts entered by 725 exhibitors were judged at the 1961 fair. This fair charges no admission to the grounds.

34th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Modoc County Fair at Cedarville)

GENERAL ANALYSIS

Present activities of the association date from 1938. Annual fairs are conducted on property leased from the County of Modoc for $1 a year and a small parcel of land owned by the association located in the City of Cedarville. Lease and options expire in 1990. The 1961 fair was held from August 25th to August 27th and consisted of general livestock and other exhibits. Four thousand four hundred forty-five exhibits entered by 515 exhibitors were judged at the fair. The 1962 fair dates are August 24th to August 26th.

This fair charges no admission to the grounds.

45th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the California Midwinter Fair at Imperial)

GENERAL ANALYSIS

The association was organized in 1921. No information on activities is available prior to 1930. Annual fairs are conducted on association fairgrounds located in the City of Imperial and leased from the County of Imperial at an annual rental of $5. The lease expires in 1987. The 1961 fair was conducted from March 3rd to March 12th. Four thousand seven hundred fifty-one exhibits entered by 1,648 exhibitors were judged at the fair. The 1962 fair dates are March 3rd to March 11th. In view of the fact that fairs are held early in the year, the association has adopted a fiscal year ending June 30th for accounting purposes.

48th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Great Western Livestock Show and Great Western Dairy Show at Los Angeles)

GENERAL ANALYSIS

The association was organized in 1935. Annual fairs are held on the association's property located in the central manufacturing district of East Los Angeles. The Great Western Dairy Show, featuring dairy animals and dairy products, is conducted in the late spring of each year. The Great Western Livestock Show, featuring breeding and fat market animals, is conducted in the late fall. In 1961 the Great Western Dairy Show was held May 25th through the 30th and the Great Western Livestock Show November 15th through the 21st. The dates for the 1962 shows are May 25th through 30th for the Great Western Dairy Show and November 14th through 20th for the Great Western Livestock Show.

52nd DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Sacramento County Fair at Sacramento)

GENERAL ANALYSIS

The association was formed in 1948 pursuant to amendments to the Agricultural Code passed in 1947. The association succeeded to the activities of the Sacramento County Fair held at the City of Galt on county fairgrounds since 1937. Since 1954, fairs have been conducted on the grounds of the California State Fair due to abandonment of association grounds in Galt. Starting in 1960, the district co-sponsors the Spring Fair with the California State Fair and Exposition. The 1961 fair was conducted April 15th to April 23rd. Five thousand forty-nine exhibits entered by 1,324 exhibitors were judged at the fair. The 1962 fair dates are May 12th to May 20th.

BUTTE COUNTY FAIR

(Conducting the Butte County Fair at Gridley)

GENERAL ANALYSIS

Sponsorship of the fair by the County of Butte dates from 1938. Early fairs were held by the Paradise Fair and Apple Show Association at Paradise, California. Since 1940, fairs have been held at Gridley on the county's fairgrounds by the Butte County Fair Association under agreement with the board of supervisors under the provisions of Section 25905, Government Code. The 1961 fair was conducted from August 24th to August 27th and consisted of general livestock and other exhibits. Six thousand seven hundred thirty-two exhibits entered by 636 exhibitors were judged at the fair. The 1962 fair dates are August 23rd to August 26th.

HUMBOLDT COUNTY FAIR

(Conducting the Humboldt County Fair at Ferndale)

GENERAL ANALYSIS

The fair is held under the direction of the board of supervisors who appoint directors to manage the operation of the fair. In the past, these directors have been men from the membership of the Humboldt County Fair Association, an organization founded in 1897 and which has assisted or conducted county fairs each year since that time with the exception of the war-years period. Annual fairs are conducted at the county fairgrounds located in the City of Ferndale. The 1961 fair was conducted from August 14th to August 20th and featured general livestock and other exhibits with particular emphasis on dairy cattle and sheep. Five thousand ninety-eight exhibits entered by 1,085 exhibitors were judged at the fair. The 1962 fair dates are August 13th to August 19th. For many years a feature of the show has been horse racing and parimutuel wagering.

PLUMAS COUNTY FAIR

(Conducting the Plumas County Fair at Quincy)

GENERAL ANALYSIS

The present activities of the fair date from 1940. Annual fairs are held by the Plumas County Fair Association under a contract with the board of supervisors under provisions of Government Code, Section 25905, on county fairgrounds partially owned by the county and partially leased from the United States Forest Service under a lease expiring in 1965, located just outside the City of Quincy. The 1961 fair was conducted from August 9th to August 13th and consisted of general livestock and other exhibits. Two thousand seven hundred eighty-six exhibits entered by 691 exhibitors were judged at the fair. The 1962 fair dates are August 8th to August 12th.

There is no charge for admission, but the county contribution is partially based on the actual attendance during the fair.

SAN BENITO COUNTY FAIR

(Conducting the San Benito County Saddle Horse Show and Fair at Hollister)

GENERAL ANALYSIS

The present activities of the fair date from 1937 although private shows were held prior to that date from 1927. Annual fairs are held by the San Benito Saddle Horse Association under a contract with the county under the provisions of Government Code, Section 25905, at Bolado Park located about 8 miles from the City of Hollister and owned by the 33rd District Agricultural Association. The 1961 fair was conducted from June 23rd to June 25th and, as in the past, featured light horse exhibits and a horse show. This fair charges no admissions to the grounds.

SAN MATEO COUNTY FAIR

(Conducting the San Mateo County Fair and Floral Fiesta at San Mateo)

GENERAL ANALYSIS

Sponsorship of the fair by the County of San Mateo dates from 1929. Annual fairs are held on county fairgrounds located just north of Bay Meadows race track, San Mateo, by the San Mateo County Fair Association under a contract with the board of supervisors under the provisions of Section 25905, Government Code. In the past, annual fairs have featured floricultural and agricultural exhibits and some junior livestock exhibits. A particular feature has been a horse racing meeting conducted on Bay Meadows race track under a contract with the California Jockey Club. The 1961 fair was conducted from August 4th to August 12th. Three thousand two hundred ninety-one exhibits entered by 1,154 exhibitors were judged at the fair. The 1962 fair dates are August 3rd to August 11th.

CLOVERDALE CITRUS FAIR

(Conducting the Cloverdale Citrus Fair at Cloverdale)

GENERAL ANALYSIS

This fair receives an annual state allocation under Section 19626 of the Business and Professions Code, the first such allocation being made in 1945. The Cloverdale Citrus Fair was incorporated as a nonprofit organization in 1951, prior fairs having been conducted by the Cloverdale Chamber of Commerce. Operations of the Cloverdale Citrus Fair do not come under the supervision of the Department of Finance other than through audit examinations conducted by the Audits Division of the department. Annual shows, featuring citrus displays, are conducted in the association's pavilion located in the City of Cloverdale. The 1961 show was held from February 17th to February 19th. The 1962 dates are February 23rd to 25th.

NATIONAL ORANGE SHOW

(Conducting the National Orange Show at San Bernardino)

GENERAL ANALYSIS

The National Orange Show was incorporated in 1922 and is a continuation of a nonprofit association with some modifications formed in 1910. It appears that the early history of citrus fairs in San Bernardino can be traced back to 1879. The association receives an allocation under the provisions of Section 19626 of the Business and Professions Code but does not come under the jurisdiction of the Government Code or other codes pertaining to state organizations, its actions being governed by the Corporations Code. The only jurisdiction the Department of Finance has of the activities of the association pertains to an annual audit to determine that the appropriations have been used for the general purposes provided by the statutes. Under the provisions of Section 94.6 of the Agricultural Code the National Orange Show is required to file with the Department of Finance by January 20th each year, a statement of operations in the previous calendar year. Annual fairs are conducted by the association on grounds owned by the association and located in the City of San Bernardino. The 1961 show was held from April 20th to April 30th. The 1962 show dates are March 15th to March 25th.

Salaries and Wages

INTRODUCTION

The budget of each agency includes a summary of positions now authorized and complete detail on all proposed new positions. Detailed data on staffing of state agencies, pay-scales, salary and wage payments for existing positions are presented in this supplement. The division has been made to (1) provide a clearer picture of the service programs of each agency and to reduce the amount of detail in the budget document, and (2) consolidate all essential detail on individual positions, pay-rates and salary and wage disbursements.

Positions authorized in each of the operating agencies on July 1, 1961, are listed by official class titles. Salary ranges, as outlined below, and total salary and wage requirements in the 1962-63 fiscal year for authorized positions are given. Data on positions and expenditures in 1960-61 and 1961-62 are also shown for purposes of comparison. A descriptive summary of position titles, position count, salary ranges in civil service and for instructional positions in the University of California, colleges and special schools, and the State's plan for merit salary adjustments with the established ranges is presented below.

Position Titles

In this supplement, positions included in the state civil service have been set forth under the official class titles established therefor by the State Personnel Board. Positions exempt from civil service, except those of the University of California, have been listed by the departmental titles as set forth on the official roster of employees maintained by the State Controller under the central pay installation. Positions of the University of California are shown by official class titles established under the by-laws and standing orders of the Regents of the University of California.

Positions Now Authorized

In general, the positions included under this heading are those which were established as of July 1, 1961, together with those for which funds were provided in the 1961-62 Fiscal Year Budget or otherwise authorized as of that date. Amounts shown for positions now authorized represent actual salary payments for 1960-61 and estimated salary payments during 1961-62 and 1962-63, assuming full-year employment, unless the position is estimated to be established materially later than July 1. In such cases only the cost from date of establishment is shown and the positions are so noted.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporary ''down-grading'' are included under this heading. Such transactions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, $415–556, (b) junior-intermediate clerk, $281–395.

Positions authorized temporarily until June 30, 1962, are included under ''Positions Now Authorized'' for 1961-62. These positions are identified by footnote and if extended into 1962-63 are shown as ''Proposed New Positions'' in the budget for the agency.

Number of Positions

Positions in 1960-61 are counted to the nearest tenth of actual full-time and full-year employment, except for members of boards and commissions.

Authorized positions for 1961-62 and 1962-63 are counted to the nearest tenth of full-time. Full-time positions authorized to start later than July 1 are counted as full positions.

Salary Range

Rates of pay listed under this heading represent salary ranges established by (1) the State Personnel Board for civil service and maritime academy classifications; (2) the appointing authority with the approval of the Director of Finance for certain exempt positions; (3) statute; (4) the Regents of the University of California; or (5) the Trustees of the California State Colleges.

The amounts shown indicate the minimum and the maximum rates or the annual compensation when specifically fixed by statute. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the revised pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than $10. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, $281–341 indicates a monthly salary range having steps of $281–$295–$310–$325–$341. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth on page 4.

Salary ranges for academic positions in the University of California are set forth on page 5.

Schedule of Salary Ranges in Use in the State Service

Range No.	Steps				
21	$268	$281	$295	$310	$325

Salary Schedule for Instructional Positions—State Colleges

(Based Upon Salaries in Effect October 1961)

RANK[a]	ACADEMIC		VOCATIONAL
	CLASS I[b]	CLASS II[c]	
Assistant	$4,860– 5,364	–	–
Instructor	5,628– 6,840	$5,916– 7,176	–
Junior instructor[d]	5,628– 6,840	5,916– 7,176	$5,628– 6,840
Assistant professor[d]	6,204– 7,536	6,516– 7,920	–
Intermediate instructor[d]	6,204– 7,536	6,516– 7,920	6,204– 7,536
Associate professor	7,536– 9,156	7,920– 9,612	–
Senior instructor[d]	7,536– 9,156	7,920– 9,612	7,920– 9,612
Professor	9,612–11,688	10,092–12,276	–
Principal instructor	9,612–11,688	10,092–12,276	10,092–12,276

[a] Budgetary limitations on appointment to each range are 15 percent to 20 percent for instructor or below, 25 percent to 35 percent for assistant professor, 20 percent to 25 percent for associate professor, and 25 percent to 35 percent for professor, of total authorized teaching positions.

[b] Persons whose academic or professional preparation is equivalent to a college degree.

[c] Persons whose academic or professional preparation is equivalent to a doctor's degree.

[d] Instructors and vocational instructors receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

Salary Schedules for Instructional Positions—Other State Agencies

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A	$481	$505	$530	$556	$584
B	505	530	556	584	613
C	530	556	584	613	644
D	556	584	613	644	676
E	584	613	644	676	710
F	613	644	676	710	745

CRITERIA FOR RANGE DETERMINATION	ACADEMIC (Preparation)	VOCATIONAL (Preparation)
Range A	Provisional or special credential, without bachelor's degree.	—
Range B	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.	—
Range C	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.	Three years experience as journeyman craftsman.
Range D	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular general secondary credential.	Qualification for special secondary Vocational Class A Credential in T and I and PS Education.
Ranges E and F	Used only for "incentive increases" when a teacher receiving less than Range F completes at least six units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."

[a] Usual period at salary is 1 year.

[b] Usual period at salary is 2 years.

[c] Usual period at salary is 3 years.

[d] Usual period at salary not specified and used in special cases only.

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code provides that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in a position provided the employing agency certifies to the Personnel Board that the employee's job performance meets the level of quality and quantity expected by the agency considering the employee's experience in the position.

All employees in salary ranges with a maximum step of $376 and below and who have received permanent appointments may receive an increase from the first step to the second step of their salary range upon completing six months of qualifying service as defined by State Personnel Board rules. In addition, employees in salary ranges with a maximum step of $395 to and including $505 may receive a similar salary adjustment when the predominant recruitment source is from outside state service. This same adjustment may be granted to employees in classes with salary ranges not exceeding $584 where acute recruitment difficulty is experienced.

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustments opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Merit salary adjustments for employees of the University of California are determined in accordance with rules established by the Regents.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.

2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work.

3. Conditions of work in the class.

4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers and printing trades employees in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. These employees receive all the collateral benefits of premium pay for night work, travel time, and overtime pay provided by private industry. For these two groups, the State also pays the full cost of hospital, surgical and medical insurance benefits for both the employees and their dependents, where such health and welfare benefits are provided by private employers.

Casually employed trades workers working for the State do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the State does pay into vacation and retirement funds where such benefits are the prevailing practice in private industry.

Printing trades employees receive all of the benefits enjoyed by other state employees with one exception. Other state employees receive an average of 11 holidays a year. Printing trades employees are provided the eight paid holidays received by their counterparts in private industry.

The salary ranges shown are those in effect on July 1, 1961. Salaries and wages expenditures for both the 1961-62 and 1962-63 fiscal years reflect these rates of pay. Statutory salaries are provided for at the rates in effect during the 1961-62 fiscal year.

---

[a] The 5 man-year decrease in the budget year represents a staff reduction programed in the 1961-62 Governor's Budget.

[b] The increase in temporary help in 1961-62 represents approximately 18 man-years to meet staffing requirements incident to installation of electronic data processing.

---

[a] Reimbursed 100 percent from construction appropriations.

[b] Contract with Division of Beaches and Parks expired in 1960-61.

[c] A reduction of 8 positions was made to bring the position count and dollar amount into agreement as a result of 1961 legislativ reduction of working conditions request.

[d] Two positions were added administratively for the 1961-62 fiscal year only by contract with the Department of Corrections to pro vide an inmate training program at Don Lugo Conservation Camp.

[e] An increase of 66.1 positions is reflected here due to increases in contracts with counties for agricultural fire protection.

[f] An additional 10.8 positions are provided for fire protection in San Mateo County. The State assumed major fire protection respon sibility in this county on January 1, 1962.

[g] Four forestry work project foreman positions were abolished due to a reduction in the number of inmates at Crystal Creek an Murietta from 100 men to 80 men.

[h] Eight positions are added to provide an increased level of contractual services to the counties for agricultural fire protection.

---

[a] Position was shown abolished in the 1961-62 Governor's Budget based on the assumption that new quarters in San Francisco would be occupied on July 1, 1961. Janitorial costs will be borne in the rental charge of the new quarters. Delays have been experienced in preparing the new quarters for occupancy.

[a] Reduction of 0.8 man-years from authorized level in prior year budget of Water Projects Branch due to termination of the contract with the Department of Water Resources for the Sacramento River water quality study, and an increase of 9.5 man-years for the Delta Fish and Wildlife Protection Study to be reimbursed by the Department of Water Resources.

[b] Includes 16.6 man-years for the Delta Fish and Wildlife Protection Study reimbursed by the Department of Water Resources; a decrease of 4 man-years to reflect the transfer of positions to the Lake Taboe Project under the Dingell-Johnson Act; and a reduction of 1 man-year as a result of the termination of a contract with the East Bay Municipal Utilities District for a salmon spawning study.

---

[a] Includes an increase of 1.5 man-years over prior year budget to staff the reimbursable marine research committee program and an increase of 1 man-year for the seismic program which is reimbursed by oil producers conducting blasting operations in the ocean.

[b] A decrease of 1 man-year is shown to reflect the centralization of licensing in Departmental Administration.

[a] A reduction of 0.5 man-years to reflect termination of construction help which will not be required in 1962-63.
[b] A decrease of 1.8 man-years reflects closing of game farms at Chico and Marysville and the consequent reduction in seasonal help.
[c] A reduction of 2.3 man-years reflects the centralization of licensing in Departmental Administration.

[a] An increase of 0.7 man-year in temporary help in Inland Fisheries is for operating salmon and steelhead trapping and transportat facilities at Nicasio Dam. Cost to be reimbursed by the Marin Municipal Water District.

[b] Reduction of 0.9 man-year of seasonal help due to curtailment of game farm program at Yountville.

[c] Reduction of 2 man-years reflects centralization of licensing in Departmental Administration.

[a] Chapter 2132, Statutes of 1961 transferred boat registration from the Department of Motor Vehicles to the Division of Sma Craft Harbors. The following positions have been added to carry out provisions of this statute: 1 accounting technician I 1 intermediate typist-clerk, 1 senior tabulating machine operator, 4 key punch operators, and 4.7 man-years of temporary hel

[b] Chapter 2037, Statutes of 1961 abolished the Department of Natural Resources on October 1, 1961 and established the Depar ment of Conservation and the Department of Parks and Recreation in its place. The staff for this new director's office is pr vided by a transfer of 2.5 positions from the Division of Administrative Services of the old Department of Natural Resource One of these positions (shown as assistant to the director—planning) was reclassed to deputy director. In addition 2 ne positions (the director and the secretary II) are financed from savings made by the various divisions of the old Departme of Natural Resources.

[a] Positions established pursuant to Chapter 2073, Statutes of 1961.

[b] The position of Comptroller, Department of Public Works, and his immediate staff, have had a dual status, functioning both at the Departmental and Division of Highways level. Effective upon the retirement of the present Comptroller, about March 1, 1962, the organization is being clarified by placing these positions in the Division of Highways and budgeting them accordingly. Fiscal services to other divisions will continue, with reimbursement for costs. Internal auditing will remain a departmental function.

---

[a] The position of Comptroller, Department of Public Works, and his immediate staff, have had a dual status, functioning both at the Departmental and Division of Highways level. Effective upon the retirement of the present Comptroller, about March 1, 1962, the organization is being clarified by placing these positions in the Division of Highways and budgeting them accordingly.

[a] Includes 17 positions established in current year and shown as proposed new in 1962-63 fiscal year.

[b] Transferred to Technical Services Office in 1961-62.

[c] Staff transferred to Division of Operations in 1961-62.

[d] Per diem increase as a result of Chapter 920, Statutes of 1961.

Laboratories Branch:						
Principal engineer	–	1	1	1,100–1,338	16,056	16,056
Senior clerk	–	1	1	376–458	5,496	5,496
Intermediate typist-clerk	–	3	3	325–395	12,589	13,219
Janitor	–	3	3	310–376	12,057	12,244
Chemical Laboratory:						
Supervisor chemical testing section—hydraulic laboratory	–	1	1	821–998	11,976	11,976
Assistant chemical testing engineer	–	1	1	584–710	7,666	8,048
Assistant public health chemist	–	2	2	556–676	16,224	16,224
Junior chemist	–	5	5	436–530	28,561	29,987
Laboratory technician chemical analysis	–	3	3	395–481	15,809	16,606
Intermediate clerk	–	1	1	325–395	4,044	4,245
Laborer	–	1	1	358–395	4,740	4,740
Concrete Laboratory:						
Senior engineer	–	1	1	821–998	11,976	11,976
Associate engineer	–	1	1	710–862	8,520	8,940
Assistant civil engineer	–	1	1	584–710	7,984	8,384
Assistant physical testing engineer	–	1	1	584–710	8,520	8,520
Water resources technician I	–	1	1	505–613	6,672	6,672
Junior civil engineer	–	1	1	530–584	6,812	7,008
Engineering aid II	–	3	3	415–505	16,328	17,148
Intermediate typist-clerk	–	1	1	325–395	4,332	4,550
Laborer	–	2	2	358–395	9,480	9,480

TECHNICAL SERVICES OFFICES—Continued						
Engineering Computations Branch—Continued						
Data Processing—Continued				SALARY RANGE		
Water resources technician I	–	2	2	$505–613	$13,032	$13,368
Accounting tabulating machine supervisor I	–	2	2	458–556	12,445	13,058
Key punch supervisor I	–	1	1	376–458	5,364	5,496
Tabulating machine operator	–	4	4	358–436	19,243	19,952
Key punch operator	–	9	9	325–395	37,580	38,397
Engineering Programs:						
Associate engineer	–	1	1	710–862	8,520	8,940
Associate engineer electric analog systems	–	1	1	710–862	8,520	8,940
Associate statistician	–	1	1	676–821	8,112	8,520
Applied science programmer II	–	3	3	584–710	21,782	22,876
Assistant civil engineer	–	7	7	584–710	53,529	55,380
Applied science programmer I	–	2	2	481–584	11,904	12,495
Engineering aid II	–	1	1	415–505	6,060	6,060
Mobile Equipment Branch:						
Associate equipment engineer	–	1	1	710–862	10,262	10,344
Service Accounting:						
Senior account clerk	–	1	1	376–458	5,496	5,496
Intermediate clerk	–	1	1	325–395	4,126	4,332
Intermediate typist-clerk	–	1	1	325–395	4,494	4,721
Intermediate account clerk	–	1	1	325–395	3,900	4,092
Service Maintenance:						
Automotive maintenance foreman	–	1	1	556–613	7,356	7,356
Heavy equipment mechanic	–	5	5	505–556	32,561	33,178
Machine parts storekeeper	–	1	1	376–458	5,496	5,496
Mechanic's helper	–	1	1	395–436	5,022	5,232
Laborer	–	1	1	358–395	4,458	4,683
Temporary help	–	3	3	(–)	20,000	20,000
Totals, Positions Now Authorized	–	214	207	–	$1,401,715	$1,383,906
DIVISION OF DESIGN AND CONSTRUCTION						
Divisional Administration:						
Division engineer	0.9	–	–	$1,274–1,549	–	–
Assistant division engineer	0.4	–	–	1,213–1,475	–	–
Supervising engineer	1	–	–	950–1,155	–	–
Associate engineer	1.7	–	–	710–862	–	–
Senior stenographer	0.7	–	–	376–458	–	–
Clerical Services Section:						
Senior clerk	2	–	–	376–458	–	–
Senior stenographer	1	–	–	376–458	–	–
Intermediate clerk	2	–	–	325–395	–	–
Intermediate typist-clerk	7.7	–	–	325–395	–	–
Intermediate stenographer	7.5	–	–	341–415	–	–
Design Branch:						
Assistant division engineer	1	–	–	1,213–1,475	–	–
Assistant hydraulic engineer	1	–	–	584–710	–	–
Dam Design Section:						
Principal hydraulic structures engineer	1	–	–	1,100–1,338	–	–
Supervising engineer	2	–	–	950–1,155	–	–
Senior engineer	3.4	–	–	821–998	–	–
Senior hydraulic structures engineer	1.5	–	–	821–998	–	–
Associate engineer	3.6	–	–	710–862	–	–
Associate hydraulic structures engineer	0.4	–	–	710–862	–	–
Associate engineering geologist	0.7	–	–	710–862	–	–
Assistant civil engineer	14.1	–	–	584–710	–	–
Water resources technician I	1	–	–	505–613	–	–
Junior civil engineer	7.2	–	–	530–584	–	–
Aqueduct Section:						
Supervising engineer	1	–	–	950–1,155	–	–
Senior engineer	3.9	–	–	821–998	–	–
Associate engineer	9.3	–	–	710–862	–	–
Water resources engineering associate	1	–	–	676–821	–	–
Assistant civil engineer	17.5	–	–	584–710	–	–
Assistant structural engineer	0.8	–	–	584–710	–	–
Water resources technician I	1	–	–	505–613	–	–
Junior civil engineer	14.3	–	–	530–584	–	–
Engineering aid II	1	–	–	415–505	–	–
Heavy truck driver	3.9	–	–	436–481	–	–
